A LITTLE LESSON IN ECONOMY

QUESTION.—Suppose you have two men working for you. The first you pay \$1 a day; the second \$2. The second man does three times as much work as the first. Which is cheaper for you?

ANSWER.—The second man because he gives you better value for your money.

NOW TAKE LIGHTS. Oil lamps seem cheap when none of the disadvantages are taken into consideration. But for very little more you can have electric lamps giving many times the light. Besides they are clean, odorless, safe and convenient.

When you consider how little more you pay, and how much more service you get, you cannot but agree that, at our present rates, electricity furnishes the best and cheapest service. Phone Main 34 for rates.

Second Charge of Chicken Stealing Ends in Acquittal.

Spencer Lawrence was acquitted of the chicken stealing charge late Saturday night when the jury after almost nine hours of deliberation, reached a verdict in favor of the defendant. It is reported that all but one or two were in favor of acquittal all day Saturday.

HUGE ELEVATORS HOLD ENORMOUS WHEAT CROP.

Washington, Oct. 16.—The report of Consul General John E. Jones at Winnipeg which has alarmed the Chicago Board of Trade shows that the astounding rate at which grain crops of the Northwest are being diverted to Canadian elevators, houses of enormous capacity designed to meet the big demand caused by the increasing crops of Canada's western provinces. His report was brought out by an announcement that the Canadian Northern Railway, will shortly increase the storage plant of its elevators at Port Arthur.

The Canadian Northern elevators at Port Arthur are already the largest in the world and have a total storage capacity of 7,000,000 bushels says the Consul General in his special report to Washington. They consist of an original structure and two annexes. The receiving capacity is forty cars, shipping capacity 120 cars, and cleaning capacity 15 cars per hour. Each hour has 89 circular tanks and 63 intermediate spaces, and the grain storage construction is of fire proof tile.

"The Canadian Northern Railway handled in 1910, 32 per cent of Western Canada's crop. This shows a 12 per cent increase in five years as compared with 1905, when the company only handled 20 per cent. This year the Canadian Northern expects to handle fully 40 per cent of the yield.

"In Manitoba, there is an elevator capacity of 22,000,000 bushels, an increase of 772,000 bushels over the year 1908. The number of elevators erected in Saskatchewan in 1909 was 219, and the storage capacity was increased from 17,924,500 to 24,279,000 bushels. In Alberta the elevator capacity has almost doubled, it being at present 8,050,400 bushels, as against 4,092,400 bushels in 1908. In the Western provinces, west of Winnipeg there are approximately 1763 elevators in operation with a storage capacity of 11,197,900 bushels, which is an increase of

11,197,000 bushels. "It is probable that a yearly increase of storage capacity will be a part of the yearly program from now on."
