Ladd Canyon, Oct. 16.—(Special)—The teacher and pupils of the Ladd Canyon school observed Columbus day as the other schools of the county did. Little Helen Peebler, who has not walked a step for over a year on account of spinal myelitis, is now able to walk some by the aid of crutches, and braces which she recently had adjusted on her ankles. Her many friends will be glad to know that she is rapidly reaching the stage where she can enjoy life as others do. She is still taking treatment twice a week from Dr. Darland, the chiropractor.

Mrs. Fred Braden and Miss Kate Braden, wife and daughter of Fred Braden, are quite ill and are confined to their beds. Miss Kate was suddenly taken sick with appendicitis and typhoid fever combined about a week ago but under the care of Dr. Upton, she has been relieved of the appendicitis and is getting along as nicely as could be expected with the fever. Mrs. Braden was taken sick several weeks ago with an abscess under the knee and was quite a good deal better when she was stricken a few days ago with spinal rheumatism. Mr. and Mrs. Claude Braden drove down from Perry yesterday and spent the day with them.

The new barn which is being erected on Charles Grandy's farm will be completed the latter part of this week.

The Banton and Conaway threshing outfit have completed the threshing in the Ladd Canyon neighborhood and in the valley and as soon as they can thresh several fields in the upper part of the canyon they will have finished their season's run.

### First American Letter Box.

A little more than a half century ago the letter box was unknown. The inventor was Joseph William Briggs, nephew of a former governor of Massachusetts, who, as head clerk in the Cleveland postoffice, studied the needs of patrons and after correspondence with Postmaster General Dennison upon the subject took a train for Washington, bearing a pasteboard model of the letter box under his arm. The postmaster general saw the merits of the plan and appointed Mr. Briggs as special agent to establish the letter box and letter carrier system. The first letter box was attached by clamps to a lamppost that stood in front of a Cleveland drug store, and not a year had passed before fifty-two different cities had adopted the system. —National Magazine.
