A dinner at which were seated an even quarter hundred, was served at the Foley hotel last Monday night when Mrs. W. A. Murdock, grand president of the G. I. A. to the Brotherhood of Locomotive Engineers, was in the city inspecting the local division. A dinner of exceptional style and abundance greeted the diners at the Foley grill and Foley plentifulness was much in evidence. It was a dinner pure and simple as no post-grandial speeches were heard. Mrs. Murdock did, however, compliment the division in a speech while at the hall, saying the condition of the lodge was very satisfactory and better than most. Mrs. Curtis, Mrs. O'Malley and Mrs. Follett, all of Portland, were all guests of honor on the occasion. As a token of esteem the La Grande division presented Mrs. Murdock with a splendid Indian blanket, over which she was greatly pleased and said so in warm terms.

Starting off the new year in Neighborhood club the first meeting of 15 new members and re-instatement of three others—a really remarkable impetus to club life in this city—the Neighborhood club carried out its first program of the year last Tuesday afternoon. Mrs. E. O. Silverthorn appeared on the program instead of Mrs. E. Polock, using the same theme, "Principal Bridges of London." Mrs. W. A. Worstell with the paper on "History," Mrs. J. T. Williamson dealing with Christopher Wren, Mrs. A. L. Richardson using the theme, "City of London as a Whole," and the Mrs. Silverthorn's paper, the program was exceptionally entertaining. With the new library on London now in the hands of the club, came elegant pictures which were used to good advantage during the reading of the different papers. Because of the large number of new members and added zest the future of the club is indeed bright.

The reception given the Enterprise football team last Saturday night was voted a grand success. Early in the evening, with Mrs. Erla Carlock presiding at the piano dancing began. For about three hours the vanquished with the conquerors and their followers were royally entertained. While the entertainment was in the nature of a school affair the De Lykellge-Tretten is to be given the credit for the pleasant evening. The refreshment table presided over by some of the pretty club members was one of the most popular corners during the evening.

Next week was to have been quite important to the Eastern Stars but because of unforeseen circumstances it was postponed. The function was a lodge visit to Union where the crack floral drill team was to have put on the floral drill work which captivated Portland last spring. Because of the absence of Mrs. C. T. Bacon, Mrs. Schilke and others, the trip had to be delayed, but the O. E. S. ladies are looking forward to the trip with much anticipation, knowing the scope of Union hospitality.

Several weeks ago ladies of South La Grande formed a thimble club and formed the man went down to held meetings every alternate week. This week Mrs. Ed Wright was the hostess and served a very delicious luncheon during the afternoon. The club is known as the Thimble club and anticipates many very pleasant parties during the winter. Not all members of the club were present yesterday, but these were guests: Mrs.

J. W. Bush, Mrs. C. E. Tuckey, Mrs. Clarence Wilson, Mrs. James St. Johns and Mrs. Ed. Wright.

The Billiken club ladies entertained their husbands at dinner at the home of Mr. and Mrs. J. G. Snodgrass on Thursday evening. Six couples were seated. This is the first affair of the Billiken kind this year at the husbands have been guests at. Those seated were Mr. and Mrs. J. G. Snodgrass, Mrs. and Mrs. Oscar Jackson, Mr. and Mrs. Lloyd Scriber, Mr. and

sented Secretary Hugh McBreen with a loving cup.

Baseball must be catching on in England. The London Times sent over a sporting scribe to cover the world's series.

With Milan, Schaefer, Gessler, Elberfeld, McBride, Cashton, Street and Johnson with the outfit, the All-Stars came very near being the All-Nationals.

**Growing Cold?**

Yes—and we have the famous "ALL FUEL" heaters for coal or wood. Is nearly perfection in a heater. Keeps fire perfectly. Trade me your old stove on one of these and keep your house warm this winter.

I sell second-hand heaters \$1.00 to 7.50

DID YOU EVER REALIZE HOW USEFUL YOUR ELECTRIC LAMP SOCKET CAN BE?

When we think of electricity we naturally think of lights, because that is the way it is usually employed, but new uses and improvements are constantly being invented.

Among the many conveniences that electricity has made possible are electric ranges; heaters; irons; toasters; chafing dishes; hair driers; percolators; combination sets, etc.

All operate from an ordinary lamp socket, by the simple turn of a button.

Many of these articles we carry regularly in stock; the others we will gladly order for you at any time. You will find our prices most reasonable.
