

Thelsis THEATRE

"Pathe's Weekly"..... Pathe

Giving actual scenes taken of recent events in England, Germany, France, Italy and the United States. It is an education in itself and shows more in 15 minutes than one can read from 15 newspapers.

"The Squaws Love"..... Biograph

This is an extraordinary film. Dangerous situation calling for great daring and bravery are splendidly shown. It's a Biograph feature.

"A Question of Modesty"..... Lubin

A lady doctor, a real estate dealer, a hypocondriac mama and the defeat of an old quack doctor make up a splendid story of light comedy.

"Pardon Me"..... Lubin

Roaring, racy comedy. A side splitter in every inch of the reel.

Beautiful song in spotlight by La Grande's favorite tenor vocalist, Mr. C. P. Ferrin:

"In the Shadow of the Pine"

A REMARKABLE ACT.

Tonight the great Hale offers one of the most startling acts ever produced on an American stage. Mr. Hale will place himself in a complete cataleptic state and will subject himself to the most severe physical tests. He is the only man in the world who has ever attempted this feat, and has never made a failure. At the John Hopkins university of Baltimore, Md., Mr. Hale was subjected to every test known to the medical world. While in this condition the physical change that takes place is wonderful. Mr. Hale has proven himself to be an entertainer out of the ordinary. His ability at answering questions is remarkable. The man must be seen to be appreciated.

Ancient Stone Workers.

Egyptian stone workers 4,000 years ago had a surprising knowledge of what are considered modern tools. These pyramid builders operated with solid and tubular drills and straight and circular saws. In handling the tubular drills, which were of superior quality, the skill of the artisan was so remarkable that the cutting marks in granite show no indication of wear of the tool, while a cut of a tenth of an inch was made in the hardest rock at each revolution. A hole through both hard and soft material was bored perfectly smooth and uniform.
