**Ready for Bankers' Meeting.**  
 New Orleans, Nov. 17.—A dozen special trains speeding from as many parts of the country are bringing to New Orleans a host of eminent bankers and financiers who are to take part in the annual convention of the annual convention of the American Bankers' association in this city. Committee meetings and features of entertainment in connection with the convention are scheduled for Monday and the sessions proper will begin the following day. The officers of the association expect the coming meeting to be the most important as well as the largest in the history of the organization. Currency reform will be the all-absorbing topic of discussion. Unless all signs go astray the association will give its formal approval to the main features of the plan the National Monetary Commission will

report to congress this winter. Another subject that will receive the attention of the convention will be the working of the postal savings bank system and its effect upon the general banking business of the country.

**A Treacherous Trouble.**

**La Grande People are Shown the Way Out.**

Kidney diseases are very dangerous. They come on silently, gain ground rapidly, and cause thousands of deaths that could have been prevented by proper treatment at the beginning. Nature gives early warnings of kidney disease—backache, twinges of pain when stooping or lifting, headaches and urinary disorders. If these symptoms are unheeded, there is grave danger of dropsy or fatal Bright's

disease. Doan's Kidney Pills have earned a reputation for their effectiveness in kidney troubles, and are known and recommended the world over. La Grande readers should find convincing proof in the following statement. It's from a citizen of this locality.

John Torengo, Cracker St., Sumpter, Ore., says: "Last spring my kidneys were disordered and I began to suffer from backache. I noticed that the kidney secretions were highly colored and painful in passage and I thus knew that my kidneys were at fault. The use of one box of Doan's Kidney Pills toned up my kidneys and caused the backache to cease. I am grateful to Doan's Kidney Pills for what they did for me."

**Father's Vengeance**

would have fallen on any one who attacked the son of Peter Bondy, of South Rockwood, Mich., but he was powerless before attacks of kidney trouble. "Doctors could not help him," he wrote, "so at last we gave him Electric Bitters and he improved wonderfully from taking six bottles. It's the best kidney medicine I ever saw." Backache, tired feeling, nervousness, loss of appetite, warm of kidney trouble that may end in dropsy, diabetes or Bright's disease. Beware: Take Electric Bitters and be safe. **RURAL HYGIENE IN SHORT TERM**

O. A. C. PLANS NEW WORK FOR SHORT COURSE.

Rural Hygiene Will Be Studied at the Short Course.

Oregon Agricultural College, Corvallis, Ore., Nov. 17.—(Special) — A course in rural hygiene is to be inaugurated this winter at the Oregon Agricultural college during the short course. A popular course of lectures will be given on the factors favorable and otherwise to health in rural communities. Prof. T. D. Beckwith, head of the bacteriology department, will give these lectures.

"The farmer ordinarily gives far more attention to the health of his stock than to that of himself and family," said Prof. Beckwith, speaking of the proposed lectures. "The point that the health of the people may be reckoned in dollars and cents to the community escapes the average citizen in his mad scramble for more evident wealth. For example, it is computed that the annual loss to the United States through human tuberculosis amounts to \$6,000,000,000 which is approximately three-fourths the value of the entire wheat crop of the country. This immense annual loss, about 75 per cent of which is preventable, is due solely to carelessness and ignorance of the most rudimentary rules of life and health. Of vastly greater importance than the money loss is the pain and suffering, most of which can be prevented by a little care and knowledge."

**The short course will SHREDLUIUP**

The short course lectures, which will be illustrated with stereopticon views, will cover such subjects as water supply (especially from wells), their location and construction as to health; sanitary methods of sewage disposal, the use and abuse of septic tanks; transmission of disease, such as tuberculosis and typhoid; flies and germ carrying; cause of colds and grippe and other epidemics.
