GENERAL DELIVERY SYSTEM IS WORKING SATISFACTORILY

J. D. Lynch today noon pronounced the general delivery system inaugurated here as working smoother the first day than he anticipated. A few misunderstandings were encountered but the troubles that were expected in getting the system under working order will be less than the sanguine promoter hoped for. Mr. Lynch's explanation of the working principle of the system whereby one company does all the delivery for all or practically all of the grocers in town, follows:

The general delivery system will begin operations Tuesday, Nov. 21st, 1911.

After investigating systems in other cities and finding the plan satisfactory to merchants and patrons, I have decided to establish a system here.

Merchants have found it impossible, at times to make delivery early enough for meals. Under the new system, goods will be delivered at regular hours, and early enough for meals and customers will be more satisfactorily served because more frequently and regularly served, and housewives can determine within a few minutes when goods will be received and will get meats and groceries on the same delivery and can plan work accordingly.

Better delivery service is the purpose of the system.

The north district will be from the O. W. R. & N. main track to Z street and between North Spruce and North Second including both sides of these streets.

The west district will be from the O. W. R. N. south to Main street and between Fourth street, Walnut and Alder streets, including both sides of these streets.

The south district will be between Main and M. streets and between Fourth and Alder streets, including both sides of these streets except Main.

The east district will be south of Main track to M street and between Fourth, Spruce and Tenth streets, including both sides of these streets except Fourth. Delivery hours in the above district are 8:00, 9:30 and 11 a. m. and 1:45, 3:30 and 5 p. m.

Old Town district: All of the city south of M street inside city limits, delivery at 8 a. m. and 1:45 p. m.

Outlying district will be all the city

not outlined above. Deliveries at 8 a. m. and 1:45 p. m. No deliveries east of Willow street, north of Fir street river bridge and west of West street, brick yard and slaughter house. Retail deliveries to hotel, restaurants, cabooses and depot any time between 8 a. m. and noon and 1 p. m. and 6 p. m.

Patrons will please note what district they reside in, and in ordering goods, give street and house number and specify what district, so, that goods may be placed in the correct wagon and orders must be in in time to prepare goods before delivery hours. Oil cans and vinegar jugs must be kept ready for filling at each house as no cans or jugs will be left.

Report promptly to room 2, Foley hotel building, (telephone Main 184) any shortage of unsatisfactory delivery and matter will be made satisfactory.

JNO. D. LYNCH.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Seal Oil Ice Cream. A favorite dish with the Eskimos is an ice cream made of seal oil into which snow is stirred until the desired consistency has been obtained; then frozen berries of different kinds are added. This concoction is said to be about as tempting to the civilized palate as frozen cod liver oil.
