FOLEY KIDNEY PILLS

They work directly on the KIDNEYS, BLADDER and URINARY PASSAGES, and their beneficial effect is felt from the start. For BACKACHE, KIDNEY and BLADDER TROUBLE, RHEUMATISM, CONGESTION of the KIDNEYS, INFLAMMATION of the BLADDER and annoying URINARY IRREGULARITIES they exercise a permanent benefit.

TONIC IN ACTION - QUICK IN RESULTS

J. A. Maple, 125 S. 7th St., Steubenville, O., says: "For years I suffered from weak kidneys and a severe bladder trouble. I learned of Foley Kidney Pills and their wonderful cures so I began taking them and sure enough I had as good results as any I heard about. My backache left me and to one of my business, expressman, that alone is a great advantage. My kidneys acted free and normal and that saved me a lot of misery. It is now a pleasure to work when it used to be a misery. Foley Kidney Pills have cured me and have my highest praise."

We wish to call your attention to the fact that most infectious diseases such as whooping cough, diphtheria and scarlet fever are contracted when the child has a cold. Chamberlain's Cough Remedy will quickly cure a cold and greatly lessen the danger of contracting these diseases. This remedy is famous for its cures of colds. It contains no opium or other narcotic and may be given to a child with implicit confidence. Sold by all dealers.

NATURE'S LAUNDRY.

It is Liable to Play Franks With the Wash in Yellowstone Park.

Nature's gifts are widely and variously distributed in one place the elements of things are given, to be made available by labor; elsewhere she provides things ready for man's use. To gain our bread the seed must be first sown and months afterward the grain harvested, thrashed and ground. But the native of the Pacific isles plucks his bread from the breadfruit tree. Perhaps nature foresaw the overworked and not overstrong housewife to whom "washing day" is a dread and burden when she established here and there natural wash-tubs and washing machines and in some places even provided ready made soap.

In the Yellowstone National park the family washing is easily disposed of. The soiled bedding and clothing are put into a stout bag, which is hung in one of the boiling springs and left there while the party wanders about sightseeing. When taken out the clothes are so clean and white that no rinsing is necessary. On one occasion a party hung their bag of clothes in the basin of the geyser called "Old Giant" and, wandering off, were absent longer than they intended to be. While they were away the "Giant" spouted, and the garments were thrown high in the air, torn into shreds and scattered.—Exchange.

CHINESE TREASURES.

"Rubbings" on Paper From Ancient Tablets and Monuments.

Chinese men of letters are exceedingly fond of ancient records in the shape of long scrolls of paper "rubbings" from famous stone tablets and monuments. The Lin Li Chang stationers of Peking are extensive traders in these. They send special agents on long trips to shrines or arrange with the local people at the place of a noted monument to take paper rubbings from it. The usual rubbing is a field of black where the face has been inked, the lettering cut into the marble remaining white on the paper rubbing.

To the foreigner in China rubbings from the tablets the one left by the Nestorian Christians at Sianfu, in Shensi, about 600 A. D. and the Mohammedan tablet are especially interesting. Those from the tablets at the temple of Confucius at his burial place, Chefoo, in Shantung, are among the collections of the Chinese man of education. So many rubbings have been taken from several of the tablets which bear line portraits of Confucius that the lines and the letters on the stone have become so faint that the government has prohibited further rubbings being taken.—New York Sun.

Man More Liquid Than Solid.

Every fiber and every cell that enters into the formation of a living body is bathed in moisture, by which means alone these ultimate elements are kept alive and are enabled to carry out their duties. Even the bones, which appear to be the most solid of all, owe more than half their weight to the presence of fluid. That our bodies contain a large amount of fluid is proved in a striking manner by the blisters which rise after the infliction of a burn. Water, in fact, plays a very important part in the human anatomy, for it is through its agency that the vital processes of digestion, absorption and the excretion of waste products are carried out. To reduce the whole matter to figures and taking 154 pounds to be the total weight of an average full grown man, it is said that water alone accounts for 109 pounds of the whole.

Starts Much Trouble.

If all people knew that neglect of constipation would result in severe indigestion, yellow jaundice or virulent liver trouble they would soon take Dr. King's New Life Pills and end it. It's the only safe way. Best for biliousness, headache, dyspepsia, chills and debility. 25c at all druggists. Don't waste your money buying strengthening pasters. Chamberlain's Liniment is cheaper and better. Darned liver trouble they would soon pen a piece of flannel with it and bind it over the affected parts and it will relieve the pain and soreness. For sale by all dealers. eodwky
