NEW SCHOOL DEFEATED.

Baker Voters Come to Rescue With Current Expense Vote This Week.

The special school election held yesterday afternoon had an exciting finish, a total of 470 votes being cast, records the Baker Herald. As soon as it was seen that both measures were likely to be defeated the friends of the measures rallied to their support and managed to save the vote to raise \$41,000 for current expenses, but could not muster enough to carry the proposition to raise \$5000 for the purchase of a site for a new high school.

A feature of the voting was the interest taken by the women of the city. Many of the leading ladies of the city, as soon as they were informed of the situation, took down their telephones and called up their friends and urged them to get out and vote. To them is largely due the credit for saving the schools from being closed for lack of funds.

The vote to raise \$41,000 for current expenses, was carried by a majority of 101, there being 283 cast in favor of it, and 182 against. To raise money for a new high school site was defeated by a majority of 12, there being 228 votes in favor, and 240 against the measure.

How Little Things Count

Here is a Dime. Save it. Not a large amount, you say? No, you're right, yet it represents ten per cent. interest on one dollar for a year. It's the little things that count in this life. History tells us that the Duke of Wellington attributes the victory of the Allies at Waterloo to the closing of the Hugomont Castle gates by James MacDonnell and John Graham. It was a small thing. But the results have been marvelous as we look back over the intervening years. Philip D. Armour knew the value of little things. They say he packed everything but the last breath of a hog—utilizing the waste in the manufacture of by-product—made him wealthy. The small boy by sticking his finger in the leak in the dam saved Holland from devastation. A few drops of water on a stone make no impression—the constant drip wears away the stone. The little point on the auger prepares the way for the large bored hole. A single grain of corn produces from one to two perfect ears. And so the LITTLE DIME is a part of a dollar. Dollars at interest produce dollars just as surely as the seed sown on rich ground brings forth an abundant harvest. Then save the DIME. Watch it grow.
