COUNCIL HEARS ROUTINE AFFAIRS

LIBRARY PETITION IS REFERRED TO COMMITTEE.

City Attorney Holds City Has Jurisdiction in Slaughter House Affair.

With all councilmen save Tom Fleming through its regular routine of meeting present the city council went last night, hearing the list of bills read and officers' reports handed in. Among the important matters coming to the attention of the law makers was the petition from the library commission signed by a large number of citizens asking what the city property corner on Fourth and Pennsylvania be set aside for library site purposes. The petition was referred. A lengthy report from City Attorney Cochran held that the city has jurisdiction on a distance of three mile from the city limits in handling and abetting nuisances. This came up in answer to the petition of North Side people asking that the Grande Ronde slaughter house be not rebuilt at its present site.

The bid of Geo. H. Sutherland for the construction of sewer in 6, on M avenue, was accepted. It is on the same basis as his bid for the regular work being done.

Councilman Finley was appointed chairman of the ways and means committee to succeed Tom Fleming.

How Little Things Count

Here is a Dime. Save it. Not a large amount, you say? No, you're right, yet it represents ten per cent. interest on one dollar for a year. It's the little things that count in this life. History tells us that the Duke of Wellington attributes the victory of the Allies at Waterloo to the closing of the Hugomont Castle gates by James MacDonnell and John Graham. It was a small thing. But the results have been marvelous as we look back over the intervening years. Philip D. Armour knew the value of little things. They say he packed everything but the last breath of a hog—utilizing the waste in the manufacture of by-products—made him wealthy. The small boy by sticking his finger in the leak in the dam saved Holland from devastation. A few drops of water on a stone make no impression—the constant drip wears away the stone. The little point on the auger prepares the way for the large bored hole. A single grain of corn produces from one to two perfect ears. And so the LITTLE DIME is a part of a dollar. Dollars at interest produce dollars just as surely as the seed sown on rich ground brings forth an abundant harvest. Then save the DIME. Watch it grow.
