At first a curiosity; then a luxury; then a great convenience; now almost a necessity

That is the history of the electric light—the greatest invention of the last century. A perfect light without one bad feature. The most remarkable thing of all is: that while the prices of most necessities have greatly advanced, the cost of electricity has been steadily reduced.

No matter how humble your circumstances, electric lights are within your means. There is no reason why you cannot enjoy them. Phone Main 34 for rates.
