## Move Up, Please

You have asked yourself, "Why does the man next to me advance?" You think you work as hard as he, and you do. You earn as much, too. Good, so far. But you SPEND MORE! There's the difference. Simmer it all down and it becomes a matter of training. Training in habits of thrift. One large eastern manufacturing company marks those men for promotion who have shown ability to save money. The savings book with the bank is by far the best evidence to this end. It tells exactly how the saving ability has been cultivated. The saver proves his ability to manage his own business. No wonder his employer marks him for advancement!

## HIGH SCHOOL AFFAIRS OF INTEREST TO PARENTS

Students From Grades to Entertain—Debate Tryouts Slated for Next Week—Others Notes.

Friday the 22nd of December "in the evening" is the date; at the high school auditorium the grade children will present a grand program. As amateurs they will carry out an entertainment hard to be equalled. Those in charge of the event have been reviewing the parts for some time and prophesy that there will be a crowded hall. The proceeds of this entertainment will go towards buying some large cabinet phonographs by which the pupils can train the ear for music from the productions of great masters. This system is being followed in the schools of all the larger cities but it has been left to La Grande to start it in the towns with the educational facilities of which we can boast.

Dr. Lewtas of Tacoma, in a speech before the student body on Friday morning gave a graphic account of the life, habits and growth of the British people together with the attendant circumstances. He kept the audience in a good humor throughout and left them greatly pleased by the treat.

Mr. Allen, a former coach of Seattle, addressed the student body at assembly Tuesday morning. His talk was on the subject, "Not Did You Win, but How Did You Win?" In an unique and pleasing way he set forth the enjoyment to be had in competition even by the loser.

Complimentary tickets to hear Eugene Wood, the first speaker on the socialist lyceum course were distributed among the high school students Friday. He will speak in the auditorium at 8 o'clock on the evening of December 18th.

The Tillicums have announced that they will present a program on Friday afternoon of the second week after vacation. This program, which will be announced later, promises to be very interesting and enjoyable.

A high power objective for studying bacteria, an abney condenser and a microtome have been added to the equipment of the botany class this week and more paraphernalia is expected soon.

The try out debate will be on the subject, "Resolved, that tariff should be for revenue only." It will be held the last of next week after which the teams will be announced.

The manual training class to date have finished thirty work benches, one chest, a cabinet for screws and nails and tool racks. Monday the regular class in wood work started.

Comparative tests are the order of the day in the music classes where all are called upon for demonstration in sight reading and theory.

Tuesday evening the chorus class met and organized. All who intend

to take part in this work will be in by next Tuesday.

The football men met Thursday and had their pictures taken.
