Congratulations Due Mr. Snodgrass

J. G. Snodgrass and his customers are delighted with the Sherer display counter which he has just unpacked and high stands in his store in all its glory.

The counter is certainly a most attractive piece of furniture and adds greatly to the appearance of the store.

Perhaps the most wonderful thing about the counter is the fact that Mr. Snodgrass can fill all of the 30 drawers of his counter with dried peaches, apricots, prunes, rice or other commodities and sell from these drawers what he knows to be "absolutely pure"

food—for the interior construction of the counter is such that mice, bugs and dirt cannot call the inside of these drawers "home" and thereby contaminate and render harmful their contents.

IT IS FOR YOU TO DECIDE

It does not make one particle of difference what druggist's name appears on your prescription blank, it remains for you to decide where you are going to have that prescription filled. When you want a prescription filled, you want to get results from the medicine it calls for, therefore reason helps you to decide in favor of the drug store that carries high quality, full strength drugs and where scientific, careful compounding is always practiced.
