**"MADGE OF THE MOUNTAINS"** ..... Vitagraph  
A mountain romance of remarkable beauty, keen heart interest and human attractiveness

**"THE LOST NECKLACE"** ..... Pathe  
A sleepwalking picture where the heroine dreams she is robbed of a necklace and in her sleep hides it in a tree. It's a great production.

**"LITTLE INJIN"** ..... Selig  
This is a good one. Little "INJIN'S" relatives come to the city in all kinds of costumes and are entertained, not willingly, by the white people with whom Little "INJIN" is staying. Beautiful illustrated song:

**"A GARLAND OF OLD FASHIONED ROSES"**  
Sung by Miss Garrick and Mr. Ferrin.

The Isis shows a great Vitagraph picture, "Madge of the Mountains." There is a thrill of dramatic strength to this that grips our attention, until we find ourselves absorbed in a very pretty romance of the Tennessee mountains, bringing together two hearts from opposite environments, an evidence of the caprice of destiny. It is a Vitagraph Life Portrayal, which is shown by the management of the Isis theatre, and we are assured of one of the best evenings of the season.

The early arrivals included several manufacturers of motor cycles, tires and accessories, in addition to the heads of the big plants engaged in the exclusive production of pleasure and commercial vehicles. The show this year is to be a two weeks' session. The first week is to be devoted exclusively to gasoline cars. The electric vehicles will have their innings the second week.

The duties of the position will consist in conducting experiments in the adaptation and breeding of varieties of oats and in studying the methods of cultivation, harvesting and threshing of this grain and its use as a cereal. Such investigations involve much traveling during the growing season, with laboratory work during the winter at Washington. The position comes under the Bureau of Plant Industry in the department of agriculture.
