LAND SHOW TO RUN YEARLY

EXPOSITION BUILDING TO BE OPEN EVERY DAY.

Winnipeg Will Aid "Back to the Farm" Movement Materially.

Winnipeg, Man., Jan. 17.—(Special)—A new idea in a city's aid to the "back to the farm movement" has sprung from land shows, private and quasi-public enterprises, in the United States—a free exposition in a new exposition building in the heart of Winnipeg. This was launched after the consideration of many plans by the Development and Industrial Bureau in preparation for the opening of the grand Trunk Pacific's new transcontinental line which will open up a great empire of virgin country between Edmonton and Prince Rupert on the Pacific ocean. The exposition is to be open every day in the year for the next three years with the exception of Sunday and holidays.

The exploitation by a city of the resources of its territory is considered a long step toward the readjustment of population between the city and the country, a subject of much discussion in the United States.

There will be an auditorium, a museum and a great exhibit hall where all the exhibits will have to conform to a standard fixed by the Winnipeg bureau.

The museum promises to be an important feature of the exposition for many interesting exhibits of the fauna and flora of Western Canada are assembled and will be added to as rapidly as possible. The Grand Trunk Pacific has opened a territory from which many new and rare specimens have been secured for some of the wildest mountain peaks and valleys of the Canadian Rockies have been discovered since the first reconnaissance was made. The auditorium is to be used for conventions and other gatherings and for lectures which it is expected, will be attended by many classes of school and college students with their teachers.

With the first announcement of the plan applications for space began to pour in upon Secretary Charles F. Roland. One of the rules established was "no object or article of a dangerous or detrimental character or incompatible with the object or decorum of the exposition or the safety or the comfort of the public, and no live animals shall be brought into the exposition building."

"The hall of industry is a development of the idea of the city museum and convention hall and a land show" says Secretary Roland. "Members of the bureau saw immediately when the plan was proposed that it was a solution of the many things it has been striving for."

I was unable to lie comfortably on my back and I was bothered a great deal by too frequent passages of the kidney secretions. After several well-known remedies had failed to help me, I took Doan's Kidney Pills and they relieved all my troubles. I am grateful to this remedy for its good work."
