To Launch Two Revenue Cutters.

Washington, D. C., Jan. 26.—Arrangements for the launching of the new revenue cutters, Unalga and Miami, which will take place at Newport News, Va., tomorrow, have been completed. Two young ladies well known to Washington society will be the sponsors. They are Miss Elizabeth Hilles, daughter of the secretary to the president, who will christen the Unalga, and Miss Barnes Richardson, daughter of Representative Richardson of Alabama, who will break the bottle on the bow of the Miami. The

launching will be witnessed by many Washingtonians and officers of the revenue service.

Both vessels are built for speed. The Unalga is designed for service in Alaskan waters, to protect the seal fisheries, while the Miami will do duty off the Florida coast. They are the first of the cutters to be constructed in a private shipyard under the eight hour law. They have each a displacement of 1,100 tons and each cost \$250,000.

KINK IN RAIL CAUSED WRECK

ARLINGTON "SPILL" PROBED BY BOARD.

Full Report of the Wreck Occurring Last Monday Made by Probers.

Causes of the recent wreck near Arlington in which the locomotive cut-peculiar capers and almost miraculously failed to severely injure or kill the engine crew, have been probed and placed by the board of inquiry. The board reports:

Quinton, Ore., Jan. 22, 1912. Report of Board of Inquiry Derailment of Mail Train 10, 1/4 mile east of mile post 130, 10:22 p. m., January 21, 1912.

Mail train No. 10, engine No. 98, Conductor Wm. Dunn, Engineer H. Jones, derailed engine and two mail cars at mile post 130 1/4; no personal injuries. This derailment was caused by short links inwards of 4" in the south rail at a distance of 30" from the joint. Kink was caused by rock 9'x5 1/2'x8 1/2' striking rail, rock breaking loose from top of bluff 800 feet in height and about 2,000 feet long from south side of the track. From testimony of engine crew and watchman we are satisfied that watchman had very recently passed over this portion of the track on the return trip had reached mile post 31 and heard the rocks falling and immediately started back for the purpose of flagging train No. 10, but was unable to reach the point of the accident in time to flag train. Engine 98 is equipped with electric headlight, which was burning brightly at the time. Kink being short, we are satisfied that engineer could not see same. This accident happened.

From testimony of witnesses examined and from evidence secured at the scene of the accident the board is of the opinion that the accident was unavoidable and that proper precautions were taken and track properly patrolled.

AEROPLANE SAVES ITALIANS.

Attacking Force of Turks Alarmed at Sight of Air Craft and Slaughter Averted.

Gabes, Tunis, Jan. 25.—Details of an engagement between the Turks and Arabs and the Italians near Ghargharish, a small oasis about ten miles along the coast from Tripoli, on January 19, have reached here and show that at the time of the fighting the Italian destroyers had temporarily withdrawn. Boats laden with contraband approached the shore and opened a heavy fire on the Italians. At the same time 1000 Turkish regulars from Ain-zaria prepared to attack the Italians from the rear.

The Italians would have been annihilated if by chance an aeroplane coming out to try its motor had not been seen by the Turks, who became so alarmed that they were not able to carry out the turning movement. They kept up their firing however until late at night. The Italians lost 50 killed and 30 wounded.

Wisconsin's new 55-hour-a-week law for women clerks is playing havoc with the retail clerks' union. It is said the union is losing many of its women members as the result of the law. The women argue that the state law protects them and does for them just what the clerks' union was expected to do.
