Stiff practice is in store for the high school team tonight when three of the city five will add in the workouts of the high school team for the strenuous month ahead, and incidentally do themselves some good. The game is in no way a matched contest, being planned merely to give the best possible practice to the high school five.

Our specialties are dinner parties and first class service. Foley (Grill).

"Tilly Olson" was witnessed by a fair-sized house at the Steward last night and general satisfaction with the dialect parts has been expressed. The show was generally better than was expected of it.

SOIL FERTILITY NEW PROBLEM

Chicago, Jan. 26.—(Special)—Better agriculture and sustained soil fertility has become the important issue in Canada as well as in the United States where several national organizations have taken up the problem of sustaining soil fertility. A novel plan is proposed by Sir Thomas Shaughnessy, president of the Canadian Pacific, a step in advance of the seed special inaugurated by railroads several years ago, has been adopted and two trains have been equipped for spreading the growth of mixed farming. The train equipment even includes cattle, beef, swine and poultry and appliances of special interest to women to illustrate and aid the lecturers.

In the east a train of six or eight cars will be sent through the provinces of Ontario, Quebec and New Brunswick as a travelling agricultural college, taking the instruction to farmers and others interested. This train will start on February 27, covering all

the lines in that province and then going to Quebec.

In the western provinces a similar train of seven cars has been offered to the governments of Manitoba, Saskatchewan and Alberta in order that they may send lecturers this summer throughout their respective provinces to arouse the farmers on the need for mixed farming and a more extensive dairying program.

A model farm will be started in New Brunswick by the C. P. R. similar to those already in operation in the western provinces, in fact the success in the west inspired the new undertaking. Experts will be employed and the most scientific methods used.

The "mixed farming train" was first tried last year when a train of this kind was run through Manitoba by the C. P. R. and proved a decided success. The train left Winnipeg on May 30th and visited all the important points in Manitoba. It was in 1900 that the first seed train was run by the C. P. R. and it covered a distance that year of 6,317 miles and lectures on seed selection being given at 197 stations to nearly 30,000 spectators.

Last year the new train consisted of seven cars, four of which were specially equipped for teaching. One car contained equipment of special interest to women. It contained a number of appliances calculated to lessen labor given in cooking, the selection of meat for the table and the care of house plants. Lectures were also delivered on many subjects relating to the home, including the care of the sick, the foods best adapted for farm work, the management of the laundry, germ life in the home and water for domestic purposes.

A palace stock car contained representative specimens of cattle (beef and dairy), sheep and swine and poultry. Horses were secured at local points. Lessons were given in the selection, judging, breeding and management of these animals and poultry, special emphasis being placed on their economical production.

Theodore, Jr. Is Crafty.

New York, Jan. 26.—"I can see what you are after. You want me to tell just where father stands on this third term proposition," said Theodore Roosevelt, Jr., of San Francisco, here on a visit. "Nothing doing. Father does all the talking for our family." Then he described California and the west.

Earthquake Is Disastrous.

Zante, Greece, Jan. 26.—Thirty are reported dead in Lioslan Islands, and the property loss exceeds a million. The government has sent warships with provisions. An earthquake occurred in the islands yesterday.

Embezzlement Trial Starts.

Olympia, Jan. 26.—The trial of former State Highway Commissioner Snow, charged with grand larceny by

embezzlement and alleged failure to turn over \$2,100 of the state's money held in trust, began today.

Gould Merger Confirmed.

Pueblo, Colo., Jan. 26.—Practical confirmation of the reported merger of the Gould properties into a single transcontinental system with a direct line from New York to San Francisco was made here by President Bush of the Denver & Rio Grande. He would not make a specific statement.

Excursionists in Los Angeles.

Los Angeles, Jan. 26.—Two hundred inland empire excursionists are in Los Angeles today for a two weeks' tour of Southern California. J. L. Whitney of Spokane has charge of the excursion.

Franklin Called to Jury.

Los Angeles, Jan. 26.—The county grand jury which resumed the probe into the Times dynamiting, today subpoenaed Bert Franklin, charged with bribing the McNamara jurors, to appear before it, some time today. It is said the jury is tracing the motives used to bribe the jurors and is also attempting to find out everything done with the McNamara defense coin.

The employees and clerks of the Toronto, Ont., postoffice have started a movement to organize the staff of clerks and letter carriers for the purpose of making a demand upon the government for a better rate of pay than that which clerks and letter carriers now receive. If some consideration cannot be obtained, it is hinted that a strike may result that will tie up the service.

Notwithstanding the fact that Frank Morrison, secretary of the American Federation of Labor, reported to the Atlanta convention the highest paid up membership ever attained, the months of October, November and December, the first three months of the new fiscal year, reveal a still further increase in paid up membership.
