The Valley creamery pays its patrons for butterfat within 1c of its highest wholesale selling price for butter, and while other local creameries are under-selling them in order to get a temporary advantage with the retail dealers, the Valley is striving to encourage the dairymen and to help build up the dairy industry by paying the highest possible price for cream. The Grande Ronde and tributary valley is the very best dairy section in the west and if the farmers had been given proper encouragement in the past the business would be twenty-fold greater than it is today. Prosperous farmers mean prosperous merchants, prosperous creamery men and a growing prosperous city. It is a poor policy that would cry down the products of what promises to be the leading industry and thus cut off the very source of prosperity. The Valley Creamery is paying 34 cents for butterfat—one cent more than any other creamery is getting for their butter in La Grande now. Valley Creamery. dly 3-5-2t wkly 1t
