We Can Supply It

If, in handing you a prescription, the physician says, "You may have some difficulty in finding one of the ingredients in this," come directly here. We will have it if it is to be had. All new or rare drugs come to this store first. As soon as anything new appears we stock it because our prescription business is so large and come from so wide a territory that we are sure to soon have a call for it. We carry, and have demand for scores of remedies that many drug stores do not handle at all.
