To Organize for Roosevelt.

Seattle, Wash., March 13.—The Roosevelt league has complete arrangements for the state convention to be held here tomorrow, at which time plans will be discussed for an aggressive campaign in Washington in the interest of the Roosevelt candidacy. The league will oppose the "regular" state organization, which has declared for the nomination of Taft.

Connaughts' Wedding Anniversary.

Ottawa, Ont., March 13.—Today marked the 33rd anniversary of the wedding of his royal highness, the governor general, and the Duchess of Connaught. Before her marriage the Duchess of Connaught was Princess Louise, daughter of Prince Frederick Charles of Prussia.

Michigan G. O. P. Divided.

Detroit, Mich., March 13.—The Taft campaign in Michigan will be started down the ways at Hastings next Friday night, when a big republican banquet will be given with Senator Wm. Alden Smith as the chief speaker. The affair will mark the beginning of a hard fight that will be made to keep the Wolverine state in line for the president's re-nomination. A division of sentiment that is almost without precedent is admitted to exist among the republicans of Michigan at the present time. Both the United States senators and all the republican representatives from the state are placed among the Taft supporters but the president is being fought by Governor Osborn and his followers. The governor has been boosting hard for Roosevelt, but the Taft people claim they do not fear the results and that now they are getting down to the real work of the campaign things will be done to move their way.

Using Canaries to Save the Lives of Entombed Miners

Photos by United States Bureau of Mines.

To the Bible narrative of the ravens that fed Elijah and the classic tradition of the geese whose cackling saved Rome must now be added the modern story of the canaries that saved the lives of the Briceville (Tenn.) miners. The bureau of mines has for some time been experimenting with devices for rescuing miners entombed in workings filled with poisonous gases and has recommended a helmet fitted with a supply of oxygen which enables the wearer to breathe in an atmosphere in which he would otherwise suffocate. When eighty-nine miners were imprisoned in the Briceville mine the volunteer rescuers (who saved five of the prisoners) used the oxygen apparatus, but they also carried with them caged canaries in order to test the air as they advanced. The birds are much more sensitive to gas than men and show signs of distress before the amount of gas in the atmosphere is large enough to endanger human life and so give the men a chance to retreat in time. The upper of the two pictures shows two of the Briceville rescuers wearing the oxygen apparatus; the lower the huge tube which the bureau used as a laboratory substitute for a mine, with the experimenters entering it with the canary with which they are about to test the air.

"OUTLOOK" FOR SELLING

Editor H. L. St. Clair Comes Out Strong and Predicts Success.

The Gresham Outlook, edited by H. L. St. Clair, one of the strong country papers of the state, has endorsed the candidacy of Ben Selling for United States senator in no unambiguous language. Here is what the Outlook editorially has to say:

"The candidacy of Ben Selling for the nomination as United States senator, to take the place occupied by Jonathan Bourne, Jr., is formally announced. Mr. Selling has been getting ready for this announcement for some time and he has been encouraged by thousands of friends. Mr. Selling is a man of practical affairs, not theories. He is a good clean Republican, not a politician. He is a thorough Oregonian and stands for the best in the Oregon system. We look for him to make a sweeping campaign and not only secure the nomination on April 19, but the election in the fall.

"Mr. Selling tells in his declaration what he will stand for and try to accomplish if elected:

"If I am nominated and elected, I will, during my term of office, uphold the Oregon system; support tariff revision with justice to labor, producer and consumer; larger appropriations under continuing contracts for Oregon's rivers and harbors; local Federal land courts for speedily determining settlers' rights; administration of forest reserves in the interest of our people; return of Oregon's reclamation fund; immediate development of Alaska's resources under government control; pensions for deserving veterans; federal regulation of corporations; an elastic monetary system free from Wall street influence; graduated income tax; presidential primaries; direct election president; vice president and United States senators; free canal for American ships; parcels post; oppose special interests; ship subsidies."

HUMOR OF THE DAY

But In Her Case—

Woman's wit readily adapts itself to all places and all occasions. A woman lecturer was delivering a practical talk on beauty and the beauty cult for the entertainment of a woman's club at an interesting session one afternoon.

In the course of her lecture the speaker emphasized the point that certain measurements were fundamentally important. Unhappily, however, the lecturer herself had a form—if her unusual bulk could be dignified by such a term—that was fashioned on anything but the lines of the Kellermann type.

Proceeding with her dissertation on measurements, she held up a very fat, round wrist and said: "Now, twice around my wrist, once around my throat. Twice around my throat, once around my waist. Twice around my waist!"

"Once around Forest park!" exploded an irrepressible young thing out in the audience, and the storm of laughter that followed was altogether immeasurable.—St. Louis Post-Dispatch.

Our Panama Treaty.

By the terms of the treaty with Panama of Feb. 26, 1904, the United States guarantees and is to maintain the independence of the republic of Panama. The canal is to be neutral. The purchase price of the property of the canal company was \$40,000,000, and the sum of \$10,000,000 was paid to the republic of Panama. In addition Panama is to receive an annual payment of \$250,000 in gold during the life of the treaty, beginning nine years after the date of the ratification.—New York American.

An Irishman in Germany.

An Irishman in Germany in three seasons has earned nearly half a million dollars on the turf. That is what James H. McCormick, the noted trainer of Sheephead Bay, has accomplished. In 1900 his horses won \$140,000, in 1910 \$125,000, and last year he capped the climax of his endeavors to capture the German money by finishing second to Emperor William's leading winning stable with \$100,000 to his credit. He has fifty-six horses in training for this season and will follow up his success.

Start the Spring Season off right with the Union Suit that

CAN'T GAP IN THE SEAT!

An exclusive Superior feature. "the lap without the gap," is a seat that can't spread open because it interlocks like the ends of a collar. And it

—CAN'T BIND IN THE CROUCH!

—because it adjusts itself instantly to every position, always stays shut and always sets snug and smooth. Another exclusive Superior feature

—GIVES DOUBLE WEAR! where the wear is hardest!

This is a reinforced crotch that takes all strain off the front buttons, crotch and leg seams, and makes impossible the ripping, tearing and stretching so common there. And the Superior always fits perfectly! Its fabric is so elastic it gives entire freedom of action, yet never loses its figure-knit design. Cuffs and ankles are fashioned so they never "creep." And there is a Superior size for every man.

THE GOLDEN RULE CO.

Nagel Stumping New England.

Boston, Mass., March 13.—Presumably to offset the effect of the recent visit of Colonel Roosevelt to Boston, Secretary of Commerce and Labor Nagel came to New England today to deliver several addresses for President Taft. Mr. Nagel is booked to speak in Springfield tonight and in Providence tomorrow night. Early next week this section is to receive a visit from President Taft himself. The president will be in Boston Monday for the Evacuation day celebration and will spend the next two days in New Hampshire, where Governor Bass is stirring things up in the interest of the Roosevelt candidacy.
