**HIGH SCHOOL NOTES.**

Olaf Group, who has been taking a post-graduate course in the commercial line this term has accepted a position as stenographer in the office of Attorney John S. Hodgins.

Tuesday morning Geo. T. Cochran gave an interesting talk on the growth of the Philippines in the last 12 years. A remarkable growth in the moral, physical and mental activities was shown in contrast with the customs prior to that time.

President Harley Richardson, of the seniors, addressed the student body at assembly Tuesday morning in behalf of the support for the high school annual which will make its first appearance at the end of the term.

A lecture, illustrated by experiments will be delivered on the evening of April 19th by Dr. Patty. The subjects, radium, wireless telegraphy and liquid air are the latest discoveries of the scientific laboratories.

A debate is being arranged with Elgin, to be held in the near future. The Parcels Post will be the bone of contention between the two teams.

Mr. Thompson's 8th grade class won over Mr. Snider's 6th and 7th in a spelling match, Friday afternoon. At the same time Miss Bunnell's 3rd and 4th b pupils worsted Miss Cook's 5th graders. The 4th a girls also won over the 4th a boys.

Blind-fold typewriting tests have been the order of the day for the past

week. On Friday an informal contest was held for accuracy in which Paul Cronter took first, Mary Penington and Muriel Moss tied for second while Lema Moss won third.

A committee on Child Welfare of the Ladies' Neighborhood club visited the schools Thursday.

The manual training class have just finished a table and magazine rack

This class is also turning out goggles, napkin rings, and other small articles.

The mechanical drawing class is putting finishing touches on geometrical constructions.

Don't be alarmed! It's spring! That is not a marathon runner tearing across the fields. It's only one of the members of the L. H. S. botany class hunting new species and early flowers.

Insist upon the BEST

## Madam! If your husband won't provide electric lights for you, make him

look after the oil lamps. Let him see how much time it takes daily to clean, fill and trim them, that might be employed in more profitable pursuit.

Oil lamps are a nuisance. They are most unsatisfactory lights at best. They smoke, flare and give out noxious gases. Perfect ventilation is impossible because it isn't safe to raise the windows where there are curtains to be blown. Then an open window makes an unsteady light, which means danger from explosion.

Doubtless there are some people who will always use oil lamps, but the vast majority are realizing that, measured by the standard of service, electric lights are the cheapest and best. Phone us for rates. Main 34.
