

You're Not Spending Money When You Buy An Excelsior Auto-Cycle

You're not spending money when you buy an Excelsior Auto Cycle—you are investing it. The Excelsior will not only prove to be a time saver—but it will be, because of its long life, its durability, its sturdy and careful construction, a life-time investment. The Excelsior is clean comfortable, strong, speedy and simple.

The Excelsior Is Built---Not Made

Piece by piece, part by part, the Excelsior Auto-Cycle is built. The frame is of Shelby steel tubing and reinforced—the fitting throughout are drop forged—all to give strength and durability. The cylinders and bearings are ground to size and absolute roundness, with proper allowance for running fits to an accuracy of 1-4000 of an inch. The engine is hung low to give steadiness. Auto-type mudguards, chainguard, aspirator and oil-proof bearings give cleanliness. The Kumfort-Kushion spring seat post and perfected cradle spring fork give comfort—the small number of parts and ease of operation, give simplicity. There is nothing wanting in the Excelsior—that's why it always makes good.

Back From Europe. (Union Scout.) Miss Loueen Hutchinson arrived

home from the east Sunday morning, after an extended trip through Europe. Many points of interest were visited by Miss Hutchinson while in the old world but most of her time was spent in Italy and on the Mediterranean. Eighty days were spent on the waters without encountering seasickness. Many notable points in northern Africa were visited and the young lady feels glad for her trip. The people here are glad to welcome her home.

SPRING COMES NIMRODS AGOG

NEW REGULATIONS TO GOVERN EUGENE MEET.

Athletic Notes of Current Interest as Compiled for Busy Readers.

Awakening of spring has flamed latent affection for Isaac Walton's favorite

pastime, and judging from the number of licenses secured—and by the way they can't be obtained over the telephone now as customary—the instant that the freshets clear away and mountain streams are available for fishing, there will be an exodus to the fishing grounds. The advance sale of licenses has been abnormal up to this time.

*** The craze toward rapid navigation has again taken hold and the sale of motorcycles is in order for those who either cannot or do not care for automobiles. The spring season started off with the sale of an Excelsior six horse power machine to George Ruby by F. L. Jones, the local representative

for that make of miniature automobiles.

*** Something distinctly new and original—at the same time much appreciated has been inaugurated by the University of Oregon scholastic management. The interscholastic championship track and field meet at Eugene this year will be participated in by those who win first and second places in the Eastern Oregon meet. Four are to go free of charge to the respective schools, if that many qualify from each school. The innovation is greeted with pleasure in La Grande where it has always been an expensive item to send athletes to Eugene or Corvallis either. This venture also places more importance on the Eastern Oregon meet at Baker, and La Grande anticipate that it will be queer if the full quota of four do not go to the college village on the strength of winnings at Baker.

Willie Pearce, erstwhile star long distance man and hurdler, will officiate as tutor of the high school squad this year. His thorough knowledge of the game, his experience and popularity should go far toward whipping the squad into championship form. Preliminary training has already commenced under the tutelage of the local eye fixer.

*** The basketball team posed this afternoon for Photographer Ritter. The season just past has been in every

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
