

I take pleasure in announcing to the public that I have moved my optical office to the Haworth building three doors east of the Golden Rule store on Adams avenue where I have fitted up optical rooms, more modern, also more conveniently arranged for the scientific practice of optometry. You are cordially invited to inspect my office and equipment and let me explain my methods of sight testing.

My large growing practice proves that MY METHOD of sight testing GETS RESULTS where others fail.

I DO NOT USE DRUGS. I GRIND ALL MY GLASSES.

HOMER WINS IN INITIAL GAME

RECRUIT FROM ELGIN SAPS OUT WINNING HIT.

La Grande Twice Afterwards Has the Bases Full but Visitors Win.

Centerfielder Barnes, a recruit on the Elgin Moose baseball team yesterday lowered the flying emblem of Moosedom in La Grande and made it possible for his teammates to drag it in the dust of defeat when the youngster kited a homer over the left field fence scoring two ahead of him. Up to that stage La Grande Moose had the edge on the game, and in fact had it pocketed with one point to the good. Undaunted the localites pulled together and filled the bases twice after that but couldn't solve the mysterious parables shot over by that man Oswald, better known in Baker than here. In the eighth and ninth La Grande got on the paths with three men, yet couldn't cut the mustard and Elgin went home with a seven to six score. The game was interesting, well attended and in every way a first class opener to the season proper. After playing inter-town games for a time it is probable the two towns will join forces and turn out an exceptionally strong team of Moose, for the Elgin Moose are members of the La Grande lodge.

Chicago Religious Campaign Opens Chicago, April 8.—The eight-day campaign under the auspices of the Men and Religion Forward movement for the evangelization of this city began today with a series of meetings in various parts of the city, at which many noted ministers and laymen addressed large gatherings of men and boys. According to the plan of the campaign there will be daily mass meetings at central points and smaller special meetings in the afternoons with a view of attracting as many working men and boys as possible.

To Discuss "Walkout" in Mexico San Antonio, Texas, April 8.—To discuss the question of a walk-out of American railway men in Mexico, a general conference of the Brotherhood of Locomotive Engineers and the Order of Railway Conductors will be held in this city tomorrow. The meeting will last five days and will be attended by engineers and conductors from both the United States and Mexico. The dispute over the language question is one of the chief matters to be considered. This and other grievances that have been gathering force for a long time have made the conditions intolerable for the American employes on the Mexican lines according to the officials of the railway brotherhoods.

The safest, quickest and most scientific method used for fitting Glasses is OPTOMETRY.

OPTOMETRY is the art of properly fitting glasses without using DROPS in the eyes.

In the practice of OPTOMETRY there is:

No LOSS of vision for near objects.

No blurring of the eyesight for distant objects.

No dryness of the THROAT and DIZZINESS experienced.

No PARALYSIS of the eye-muscle controlling near-vision.

No possibility for future weakness of the eye muscle to manifest itself.

No discomfort and inconvenience while awaiting the subsidence of the effect of the POISONOUS DROPS in the eye.

The scientific practice of optometry is devoid of all those manifestations which will always follow, at least in part, the installation into the human eye of PARALYZING POISONOUS DROPS.

The use and abuse of DROPS in the eyes is practiced by those fitting GLASSES, who DO NOT or WILL NOT comprehend and practice OPTOMETRY.

We use only the latest scientific methods.
