A City of the Dead.

Bath, from which city Dickens carried away the immortal names of Pickwick and Snodgrass, holds relics of the master. His tobacco jar and beer jug are still proudly preserved at the Saracen's Head. But, though Dickens wrote gloriously of Bath, he never really liked the place.

"Lander's ghost goes along the silent streets here before me," he writes in 1868. "The place looks to me like a cemetery which the dead have succeeded in rising and taking. Having built streets of their old grave-stones, they wander about, scarcely trying to 'look alive.' A dead failure."

Read Only Woman Authors.

Misandry occasionally has its uses. A Russian lady, Mme. Knissavoff, who died in 1901 in St. Petersburg, would not allow any book written by a man to enter her house. She was, however, a voracious reader and wealthy enough to satisfy her cravings in this direction. On her death her library was found to contain nearly 18,000 volumes, all written by women. This was said at the time to be the most extensive collection of this kind ever formed.

When you have a cold get a bottle of Chamberlain's Cough Remedy. It will soon fix you up all right and will ward off any tendency toward pneumonia. The remedy contains no opium or other narcotic and may be given as confidently to a baby as to an adult. Sold by all dealers.

C. L. Parsons, secretary and treasurer of the C. H. Ward Drug Co., Pasadena, Calif., writes: "We have sold and recommended Foley's Honey and Tar Compound for years. We believe it to be one of the most efficient expectorants on the market. Containing no opiates or narcotics it can be given freely to children. Enough of this remedy can be taken to relieve a cold as it has no nauseating results and does not interfere with digestion." A. T. Hill.
