John Paul Jones Honored. (Continued from page eight.)

is on the stone forming the cap of the shaft. It embodies the language pon-

ularly attributed to Commodore Jones when called upon by the commander of the British frigate Serapis to surrender the battered American ship Bonhomme Richard. The inscription is as follows:

—Surrender!—

I have not yet begun to fight.

The second inscription is just below the bas relief representing Commodore Jones raising the United States flag for the first time on an American warship. It reads:

In Life he honored the Flag.

In death the Flag shall honor him.

Secretary of the Navy Meyer presided at the dedication exercises and the memorial was unveiled by Admiral Dewey. President Taft addressed the assemblage and pronounced a splendid tribute to the valor and genius of the sailor and patriot and told of his daring deeds on the high seas. The exercises concluded with the oration of the day delivered by General Horace Porter of New York, who while United States ambassador to France found the remains of Commodore Jones in an abandoned cemetery in Paris and had them brought to their present resting place in a vault of the chapel at the United States naval academy at Annapolis.

The Danger After Grip

lies often in a run down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. The greatest need then is Electric Bitters, the glorious tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system and restore to health and good spirits after

an attack of grip. If suffering, try fact satisfaction guaranteed by all them. Only 50 cents. Sold and per-drugists.

There will be a big time. The band will be out in force, and will render some of the popular airs. Professor King, the player and popular local singer will render some of the old time campaign songs of our daddies.
