STRIKEBREAKER IS ATTACKED

Though no one seems to be in possession of the facts in the case, and if the three men who did it are still in town, there has been more or less of an air of mystery over the breaking of a plate glass window in the Lewis building occupied by a garage yesterday evening about 5 o'clock. A man named Rose, a few days in jail because of a fight, was knocked through the plate glass and though the falling pieces fairly buried him up there were but few wounds inflicted. He was little the worse for the wear. Three men were seen lying in wait in the alley near the garage and when Rose approached, assaulted him and beat a hasty retreat. Rose is the man whom strikers have been unable to

cope with because of his burly strength and he has come and gone much at will since he went to work as a strikebreaker in the shops. He is said to have been partially intoxicated when he was knocked over the head by his three assailants. So far as known only one man witnessed the attack and he does not know who the assailants were. There is a general belief that strikers did the work, but the police discredit this theory.

New England Starts 22nd Season.
Boston, Mass., April 19.—The New England league, one of the oldest and most successful minor baseball organizations of the country, today started upon its 22nd annual pennant race. In the opening games New Bedford lined up at Fall River, Lawrence at Lowell, Brockton at Lynn and Haverhill at Worcester. Three new managers are in the circuit this season. They are Lave Cross at Haverhill, "Terry" McGovern at Lynn and John McLane at Brockton.

EFFICIENCY

No light approaches electricity in brilliance; no light is so soft, restful and easy on the eyes.

Reading, studying, sewing, etc., at night are very trying on the eyes, unless the light is perfect. Most eye troubles can be traced to poor light.

You can get the proper volume and quality of light by electricity, and you can get it in no other way. No other light measures up to the efficiency standard.

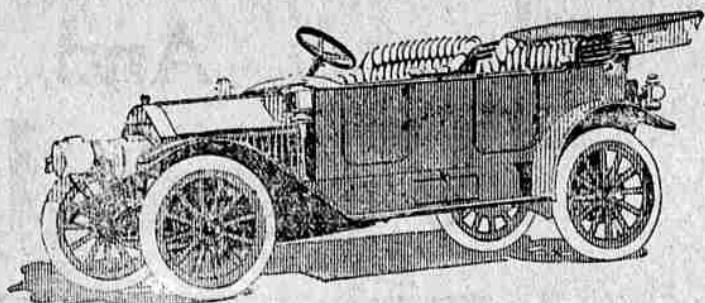

If you use any kind of artificial light, use electric light. It is more satisfactory, and cheaper in the end. For rates, call, or phone Main 34.
