

JUST ONCE IN A WHILE

An Opportunity Like This

280 Acres of deed land of which 100 acres is in hay and grain. Four springs that are constant. Fenced.
 160 Acres adjoining this farm can be homesteaded, fine bunch grass land, quite level.
 120 Acres adjoining on the other side can be isolated. Good grass.

\$3931.00

560 Acres all told that combined would make an all around farm. Situated on one of the main county roads which is good 11 months in the year. Note the price.

The 160 acres will cost you about \$25 for land office fees. The 120 acres that can be isolated will cost \$150, and the original farm of 280 acres will cost \$3750, making a total of \$3931.00. Here is a chance for some energetic man to lay the foundation for an independent life and an annually increasing bank account. You had better call at the office for details.

If You Ride You Ride In Comfort ---

The wonderful little ball-bearing motor of "The Flying Merkel" is the most powerful for its size made. Being unusually flexible it can, by a simple turn of the wrist, be throttled down to five or sped up to from fifty to seventy miles an hour, according to the model. Perfect and absolute control of the machine under all conditions is further made possible by a Free Engine Clutch—a device similar in its operation to the clutch of an automobile. This Free Engine Clutch makes it possible for "The Flying Merkel" rider, when threading the traffic of city streets, to stop his motorcycle without stopping his motor. It also is of great assistance in negotiating sandy roads and in starting on a hill. The latter being practically an impossible performance without a Free Engine Clutch.

EFFICIENCY

No light approaches electricity in brilliance: no light is so soft, restful and easy on the eyes.
 Reading, studying, sewing, etc., at night are very trying on the eyes, unless the light is perfect. Most eye troubles can be traced to poor light.
 You can get the proper volume and quality of light by electricity, and you can get it in no other way. No other light measures up to the efficiency standard.
 If you use any kind of artificial light, use electric light. It is more satisfactory, and cheaper in the end. For rates, call, or phone Main 34.
