SPOKANE RATE CASE UP AGAIN

COURT OF COMMERCE LOSES IN NOTED CASE.

La Grande Stands Fair Chance of Obtaining "June 7" Freight Rates.

Indications point to a speedy application of the famous Spokane-La Grande decision handed down by the Interstate Railroad commission June 7th but held up and later nullified by the Court of Commerce until the supreme court of the United States held the commission to be in the right. Turner Oliver, counsel for La Grande in the Spokane rate hearing several years ago which was responsible for the decision giving approximately 30 per cent reduction on freight destined for La Grande from the east, has received notification of the date set by the interstate commerce commission, on which time all interested parties—the railroads in this instance—can show cause why the June 7th rates should not be immediately invoked.

This is the now famous decision which found that freight originating in territory where there is no water competition, is entitled to a higher rate than where there is water competition, but on the other hand the general scale of rates was lowered about 30 per cent. This included some 600 commodities. At the same time the commission divided the country into imaginary zones and decreed what districts had water competition and what not. The railroads secured an injunction against the commission's invoking these rates on November 15th last year through the court of commerce which eventually held that the commission had no authority to establish these zones and thereby nullified the decision. The commission carried it to the supreme court and won the case with the result that after May 8th unless further litigation is inaugurated the lower rates on west bound freight will become effective immediately.

A Mother's Care

A careful mother will not give her child a medicine without knowing it is pure, contains no opiates, and has healing and curative qualities. Such a medicine is Foley's Honey and Tar Compound for croup, whooping cough, bronchitis, and all affections of the throat, chest and lungs. Best and safest for children and grown persons. Contains no opiates. A. T. Hill

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Believing that Catarrh to be a constitutional disease, and therefore requires constitutional treatment, Hall's Catarrh Cure, manufactured by Dr. J. C. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case that fails to cure. Send for circulars and testimonials.

Spoiled the Sport.
 A gentleman from London was invited to go for "a day's snipe shooting" in the country. The invitation was accepted, and host and guest shouldered guns and sallied forth in quest of game.
 After a time a solitary snipe rose and promptly fell to the visitor's first barrel.
 The host's face fell also.
 "We may as well return," he remarked gloomily, "for that was the only snipe in the neighborhood."

EFFICIENCY

No light approaches electricity in brilliance; no light is so soft, restful and easy on the eyes.

Reading, studying, sewing, etc., at night are very trying on the eyes, unless the light is perfect. Most eye troubles can be traced to poor light.

You can get the proper volume and quality of light by electricity, and you can get it in no other way. No other light measures up to the efficiency standard.

If you use any kind of artificial light, use electric light. It is more satisfactory, and cheaper in the end. For rates, call, or phone Main 34.
