

Malthoid Roofing

Wherever you see a roofing advertisement remember that its words of self-praise and description came from the original advertisements of the Malthoid Roofing makers.

Twenty-six years ago we said of our roofing all the nice things that are now said of every other roofing.

These "others" have stolen our words—imitated our methods—but they cannot duplicate the quality of Malthoid Roofing—it always was the best and always will be.

Whenever you see a roofing advertisement think of Malthoid the original.

EFFICIENCY

No light approaches electricity in brilliance; no light is so soft, restful and easy on the eyes.

Reading, studying, sewing, etc., at night are very trying on the eyes, unless the light is perfect. Most eye troubles can be traced to poor light.

You can get the proper volume and quality of light by electricity, and you can get it in no other way. No other light measures up to the efficiency standard.

If you use any kind of artificial light, use electric light. It is more satisfactory, and cheaper in the end. For rates, call, or phone Main 34.
