

A Stock Farm. Away Below Its Actual Value. Here Is A Chance Where Money Talks.

I have as good a stock farm as there is in Union county, 2,080 acres, of which 250 acres are in meadow and cultivation and between 50 acres and 100 acres more can be cultivated; the balance is fine grass land that speaks for itself. This farm has not been over pastured. Last year very little stock was permitted. Fine bunch grass, fenced, well watered, within 12 miles from La Grande. Fine roads 11 months in the year. Less than \$5,000 cash will handle this, the balance on very reasonable terms. If you are in any way interested in such a proposition you should lose no time in calling and permit me to show you this. The owner is a non resident and has priced this place to move it.

The last advertisement I placed in this paper brought a purchaser for the stock ranch bargain I advertised within ten days. This single insertion if read by stock men, will sell this farm. This farm is only to be inspected to demonstrate its merits and the price is as attractive as the farm itself. An auto will convey you to the farm in 45 minutes. Will you give me the opportunity of showing it?

HOME-GROWN BERRIES SOON

STANFIELD WILL HAVE CROP IN A FEW DAYS.

Here After Acre of Strawberries Are About to Ripen, Says Booster.

Oregon-grown strawberries will soon appear in La Grande. Stanfield, the new town in West Umatilla county, has acres and acres of strawberries just about to ripen and will be ready for the La Grande markets within a few days. This is the word brought from Stanfield today by Secretary G. Lansing Hurd, of the Stanfield Commercial club, who is here on land office business today.

New Potatoes Near. Stanfield, says Mr. Hurd, will break into the new potato field as early as any Oregon town. The fields have been planted for some time and new potatoes will be ready for the market much sooner than was even hoped by the most sanguine promoters of Stanfield potatoes. Milton strawberries and potatoes will not lead the Stanfield section, says Mr. Hurd.

WONDER STORE BADLY SCORCHED

PENDLETON FIRE DOES MUCH DAMAGE.

Loss Estimated to Be About \$30,000 Bad Wire Is Cause.

(Pendleton East Oregonian.)

Presumably starting from a short circuit of electric light wires, a fire originated in the back of the Wonder store on the corner of Main and Court streets at 8 o'clock last evening quickly swept through the interior of the building and before it was quenched by the fire department had done damage estimated at between \$12,000 and \$15,000. The greater part of the loss was covered by insurance.

It was just a few minutes after eight that a passerby heard a noise like a dull explosion and simultaneously saw flames burst out of a back Court street window of the building. The alarm was quickly given and the response was just as quick. Hose company No. 2 being assembled in meeting at the time. The breaking of the windows caused a strong draft and the flames quickly spread to all parts of the interior.

Quickly allayed though it was by the streams of water, the fire burned and scorched a great amount of the goods while the water itself and the smoke completed the work of damage so that but little of the stock escaped. The cash and books were saved by Charles Despain, one of the proprietors, who rushed through smoke and flames to the office.

The housekeeping rooms in the second story were soon filled with choking smoke but the inmates were warned in time to make their escape.

Fire Chief Vaushan stated this morning that an investigation leads him to the belief that the fire originated through a short circuit of wires near the office.

Messrs. Despain and Bonney, the proprietors, were carrying a stock of dry goods and sundries, the estimated value of which was \$21,000 and they were insured against loss by fire to the extent of \$16,000. The building which is owned by Mrs. Miller, formerly of this city, was not greatly damaged, some of the woodwork in the rear being burned, the paper scorched and the windows broken.

This is the second fire in the Wonder store in little more than a year, though the previous one did not do as much damage as that last night. As a result of the fire, many merchants are today burning up their trash and having their wires examined for possible defects.

How the Salmon Leaps.

Scientists as well as laymen tell extraordinary stories of the wonderful leaps whereby salmon ascend waterfalls. One investigator who has studied the salmon of southeastern Alaska, asserts that these fish do not select a path that is the least in endeavoring to surmount a fall. They show a preference for the most difficult route. They will leap over a 100-foot fall, or a 200-foot fall, or a 300-foot fall, or a 400-foot fall, or a 500-foot fall, or a 600-foot fall, or a 700-foot fall, or a 800-foot fall, or a 900-foot fall, or a 1,000-foot fall. They will leap over a 1,000-foot fall, or a 2,000-foot fall, or a 3,000-foot fall, or a 4,000-foot fall, or a 5,000-foot fall, or a 6,000-foot fall, or a 7,000-foot fall, or a 8,000-foot fall, or a 9,000-foot fall, or a 10,000-foot fall. They will leap over a 10,000-foot fall, or a 20,000-foot fall, or a 30,000-foot fall, or a 40,000-foot fall, or a 50,000-foot fall, or a 60,000-foot fall, or a 70,000-foot fall, or a 80,000-foot fall, or a 90,000-foot fall, or a 100,000-foot fall. They will leap over a 100,000-foot fall, or a 200,000-foot fall, or a 300,000-foot fall, or a 400,000-foot fall, or a 500,000-foot fall, or a 600,000-foot fall, or a 700,000-foot fall, or a 800,000-foot fall, or a 900,000-foot fall, or a 1,000,000-foot fall. They will leap over a 1,000,000-foot fall, or a 2,000,000-foot fall, or a 3,000,000-foot fall, or a 4,000,000-foot fall, or a 5,000,000-foot fall, or a 6,000,000-foot fall, or a 7,000,000-foot fall, or a 8,000,000-foot fall, or a 9,000,000-foot fall, or a 10,000,000-foot fall. They will leap over a 10,000,000-foot fall, or a 20,000,000-foot fall, or a 30,000,000-foot fall, or a 40,000,000-foot fall, or a 50,000,000-foot fall, or a 60,000,000-foot fall, or a 70,000,000-foot fall, or a 80,000,000-foot fall, or a 90,000,000-foot fall, or a 100,000,000-foot fall.
