UNCLE TOM IN CITY TODAY

LITTLE EVA IS WITH HIM AND SIMON, TOO.

Steward to Have Excellent Production of "Uncle Tom's Cabin." One of the prettiest and truest-to-nature stage pictures ever created in the cotton picking scene in the ever-popular production of Stetson's "Uncle Tom's Cabin" which is to be seen at the Steward tonight. It is a facsimile of an ideal home on the Red river, the setting having been constructed and painted from actual photographs, secured by Manager Leon Washburn. Mr. Washburn is most exacting, even in the most minor details of a production. Where another manager would be contented with paper mache plants Manager Washburn must have the real article. He engaged the services of a chemist who finally produced a shellac by the use of which the cotton plant may be preserved in its natural state indefinitely. The several hundred plants used in the Stetson production are exactly as they were when removed from a Louisiana plantation in the height of the cotton picking season. Words utterly fail in even faintly depicting this beautiful picture. It must be seen to be appreciated.

Now is the time to get rid of your rheumatism. You can do it by applying Chamberlain's Liniment and massaging the parts freely at each application. For sale by all dealers.

Saved Child From Death.

"After our child had suffered from severe bronchial trouble for a year," wrote G. T. Richardson, of Richardson's Mills, Ala., "we feared it had consumption. It had a bad cough all the time. We tried many remedies without avail, and doctor's medicine seemed as useless. Finally we tried Dr. King's New Discovery, and are pleased to say that one bottle effected a complete cure, and our child is again strong and healthy." For coughs, colds, hoarseness, lagrippe, asthma, croup and sore lungs, it's the most infallible remedy that's made. Price 50c and \$1.00. Trial bottle free. Guaranteed by all druggists.

You are crowding more into a year now than the individual put into ten years a short time ago. That means that you must prepare your entire makeup for the strain. Your manner of taking care of the digestive apparatus has not improved commensurately with the strain placed upon it. It is time to wake up and give this matter more attention. Would you expect a grain separator to do the proper work with a third of the teeth missing from the cylinder? Would there be a loss of efficiency? Apply it to the human body and see where you are. J.
