Your Doctor Knows

The person who is best fitted to tell you exactly what is the matter with you—is your doctor. He is the man who has devoted years of study and preparation for his life's work. It stands to reason that your particular ailment and its complications are best helped when a man "who knows" diagnoses your case. It is far better to do this than to trifle with remedies of unknown value, or to act upon the suggestion of a friend. When you sick—see your doctor—then bring his prescription to

Red Cross Drug Store

You can then be reasonably sure that you have all of the best that science can give in the way of medical advice, and drugs of known strength, purity, and health producing power.
