**S.S.S. REMOVES BLOOD HUMORS**

Every pore and gland of the skin is employed in the necessary work of preserving its smooth, even texture, softening and cleansing it, and regulating the temperature of our bodies. This is done by an evaporation through each tiny outlet, which goes on continually day and night. When the blood becomes infected with humors and acids a certain percentage of these impurities also pass off with the natural evaporation, and their sour, fiery nature irritates and inflames the skin, and dries up its natural oils, causing pimples, boils, pustules or some itching rash, or hard, scaly skin affection. S. S. S. cures skin troubles of every kind by neutralizing the acids and removing the humors from the blood. S. S. S. cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies its nutritious, red corpuscles, and enriches it in every way. Then the skin, instead of being irritated and diseased by the exuding acid matter, is nourished, soothed and softened by this cooling, healthy stream of blood. S. S. S., the greatest of blood purifiers, expels all foreign matter and surely cures Eczema, Acne, Tetter, Salt Rheum and all other diseases and affections of the skin. It removes pimples, blackheads, and other unsightly blemishes from the skin and assists in restoring a good complexion. Book on Skin Diseases and any medical advice desired free to all who write. **Saved Child From Death.**

"After our child had suffered from severe bronchial trouble for a year," wrote G. T. Richardson, of Richardson's Mills, Ala., "we feared it had consumption. It had a bad cough all the time. We tried many remedies without avail, and doctor's medicine seemed as useless. Finally we tried Dr. King's New Discovery, and are pleased to say that one bottle effected a complete cure, and our child is again strong and healthy." **Why Not Candles?**

Sometimes people say: "Yes, electric lights are very nice but they cost more than kerosene lamps and we can't afford them."

If low cost is your only requirement in a light, then why not go back to candle? They are cheaper still. You get about what you pay for in light, as in anything else. If you pay "candle-price" you get candle light. If you burn kerosene lamps, you have to put up with their shortcomings. But when you pay for electricity, you get LIGHT—plus, CONVENIENCE, SAFETY AND HEALTHFULNESS.

Electric lights are worth the difference. Measured by what you get—the only fair standard—they are really cheaper.

Let us tell you about the new globes which give more light for less money.
