# An Investment Or A Home

There is a difference between an investment or a home but when you can combine the two you have something extraordinary.

I have it!

160 acres every foot first class land, three living creeks running through it, 25 acres in meadow, 8 acres in clover, a family orchard just the right size for a general all around farm. Fair house and large barn, 110 acres under cultivation. This farm lays just right, you would think it was level as a floor, but it has just enough slope to provide proper drainage and ample water to irrigate when needed. Natural alfalfa land, plenty of wood for fuel for several years, 1 1-2 miles from churches, schools, lodges, R. F. D. within two hundred yards. The place for the man who wants to grow hogs, run a few cows, raise a few colts every year, grow a good garden, raise his own hay and sell some besides, live in a splendid neighborhood, where the things that we all love and desire are already established. You are not pioneering when you buy a home like this. I know of nothing at the price in this valley as good as this. I mean it. I have sold three genuine bargains through advertising during the month of May. I do not permit my ads to raise false hopes that the property when seen does not warrant.

Here is an opportunity that will not be on the market long.

**HAVE YOUR NEW HOME Wired for Electricity**

Practically all the new houses being built in La Grande this summer will be wired for electricity.

That is as it should be. Electric lights are recognized as the only satisfactory lights for the home. They are as essential as plumbing. They will pay you big dividends in health and happiness. But if you happen to live in a rented house, that is no reason why you should be deprived of their use. The cost of installation is so small, and the benefits so marked, that you will wonder why you never insisted on them before.
