TRAIN SERVICE TO PARK MAYBE

O. W. OFFICIALS HAVE IT UNDER CONSIDERATION.

Gladstone's "Splendid Program" Has Replica in La Grande This Year.

Hopes for obtaining an afternoon and evening train service to the Chautauqua grounds, or more correctly stated, to within a block of the river, during Chautauqua week, which commences June 28, are looming up very brightly.

At a special meeting of the chautauqua board last night letters were read from Portland officials of the O. W. which inform the board members that the sugar factory spur is being considered favorably for this train service and that there is a probability of definite plans being made.

If the train is eventually ordered into service, it will run to the end of the spur near the river twice daily and other convenient transportation facilities will be provided so that if the company finds itself able to carry out the train service as is hoped for, exceptional facilities will prevail.

Gladstone Program Similar.

The famous Gladstone chautauqua at Portland which is looked upon as one of the very best in the state, is this year loudly praising and touting the 1912 program. The fact that pleases La Grande chautauqua friends is that the La Grande program is exactly similar to the Gladstone numbers.

All the feature attractions at Gladstone are to be seen and heard in La Grande first.

The rougher whiskey tastes ---the stronger it is.

The stronger it is---the more harm it will do.

But then---you don't have to drink it rough, strong or high-proof.

There's Cyrus Noble, pure, old and palatable—
Bottled at drinking strength.
Costs no more than any other whiskey.

S.S.S. CURES ECZEMA, ACNE, TETTER ETC.

While Eczema, Acne, Tetter, Salt Rheum, etc., are troubles which affect the skin, their source is far deeper than the outside cuticle. These afflictions are caused by irritating humors, or uratic acid in the blood. Such impurities inflame and irritate the delicate network of fibrous tissue which lies just beneath the surface of the outer skin, and the inflammatory discharge thus produced is forced out through the pores and glands, and is continually kept up while the blood remains infected. This exudation causes the formation of scales and crusts so often seen in Eczema, and when they are scratched off the flesh is left raw and more susceptible to other infection. It can very readily be seen then that to produce a cure the circulation must be purified and cleansed. This S. S. S. will do. It goes down to the very bottom, removes all humors and impurities, neutralizes the excessive acids of the system and in this way removes the cause of disease. Local applications can only soothe the irritation and assist in keeping the skin clean; they never produce a cure because such treatment does not reach the blood. S. S. S. restores to the thin, acrid blood all its lost properties, makes it pure and rich and enables it to nourish the skin and keep it soft, smooth and healthy. Book on Skin Diseases and any medical advice free to all who write.
