POWER FIRMS ARE MERGED

ENTERPRISE COMPANY OF $300,000 FORMED.

Wallowa and Lostine Plants to Be Operated From Enterprise.

(Enterprise News-Record.)

The Enterprise Electric company, at its annual meeting this month will formally take over the electric plants at Wallowa and Lostine. The capital stock of the company, now $50,000 will be increased, probably to $300,000 authorized, making it the largest home corporation in Wallowa county.

New officers will be elected at the same time. W. C. Sivyer of Spokane, it is the present plant, will be made president and L. M. Simpson, also of Spokane, will be chosen vice president. Mr. Simpson will be superintendent of the lines.

These important chnages were announced in Enterprise recently by Mr. Sivyer and mark the merging of the electric properties of the three Wallowa county cities — Lostine, Enterprise and Wallowa.

George E. Jacobs of Portland, for some time has been acquiring these properties. He took an option on a controlling interest in the Enterprise company. Then he bought outright the electric plant formerly owned by the Wallowa Merchantile company. He also bought the Lostine property.

Mr. Sivyer and Mr. Simpson came into the county last week and looked over the property. Mr. Sivyer is heavily interested in electric companies at several places in the northwest and Mr. Simpson is an engineer. The result of their negotiations here with Mr. Jacobs, who accompanied them, was the purchase by Mr. Sivyer of the Wallowa and Lostine properties and the taking up of the option on Enterprise electric stock.

As the matter now stands the Wallowa and Lostine plants are the personal property of Mr. Sivyer who also owns a majority of the stock of the Enterprise company. At the re-organization of the latter corporation, Mr. Sivyer will deed to it the Lostine and Wallowa property and the consolidation will be complete.

E. J. Forsythe and Jonathan Haas retain an interest in the Enterprise company.

The three plants will be united at once. Material is on the way, with which to put up a heavy transmission wire from Enterprise through Lostine to Wallowa. Then the Lostine power plant will be discontinued. One of the two plants at Enterprise and Wallowa will be run continuously and the other will be operated only at night when lights are burning.
