# A STATEMENT OF FACT

Less than a year ago Connordale was a cow-pasture, and Washington Avenue a country road, muddy and rough in winter, dusty and choked with weeds in the summer. Three years ago there was not a paved street in La Grande and the census of 1910 allowed this city a population of only 4,800 people. Today there are miles of asphalt streets, concrete side-walks, green parking spaces and young shade trees—and many more districts—notably Washington Avenue—to be improved this summer. And the very people who most bitterly opposed these improvements are now asking themselves: "How did we ever get along without them?"

Together with the improvements have come a greater volume of business, an increased population and pay-roll, larger deposits in the banks, a more progressive spirit and greater prosperity for every one all the way around. DOES IT PAY? The answer is too obvious to be evaded even by the most conservative tax-payer of this city. The rapid increase in the value of property has more than off-set the cost of the improvements on it. The balance is overwhelmingly on the CREDIT side of the city's account with Prosperity.

In Connordale we have discounted the future, and have profited by the experience of others. We guarantee to deliver every lot in Connordale fully improved with concrete side-walks and curbs, wide parking spaces graded and set to lawn, shade trees and shrubbery, graded streets and city water. The city sewers and street lights will be installed shortly, and the purchaser is in a position to take immediate possession and commence building with the absolute guarantee that at no time in the future will his home be disfigured or his property torn up with new improvements. Have YOU seen Connordale?
