

CHERRIES AT COVE RIPE SOON

**ABOUT THREE HUNDRED NEEDED
TO PICK CROP.**

Between 300 and 400 Needed to Handle Crop This Year.

Cove, June 28.—(Special)—Between 300 and 400 men, boys and girls will be required to harvest the splendid crop of cherries soon to ripen in this community. The annual picnic as the cherry pickers find the task to be usually, may commence about July 15,

though the proposition is indefinite. In fact, the entire cherry picking feature and cherry fair event depends much on the weather between now and then. To all appearances the fair will be called for some day between the 15th and 20th of July, and publicity will be given it over the entire country as soon as it can be learned when the cherries will ripen. A few of the early cherry orchards will commence to turn out crops July 5th or 6th but the main commercial types will be about two weeks later than the early ones. The small berry crop will soon be exhausted.

Some of the critics predicted the first of the season that the Cincinnati Reds would curl up and wither about July 4, and Hank O'Day, will have to keep his hired men on their toes or the critics will win.

Malthoid Roofing

The dependability of Malthoid Roofing has been proven by special tests covering a period of many years.

Made in the largest factory in the world—it is absolutely right in every detail.

It resists fire—
is acid proof—
water and weather proof—
Keeps heat in the building in winter.

Keeps it out in summer.

Malthoid will last as long as the building it covers. It is inexpensive easy to lay and your roof troubles are over when Malthoid is laid.
