S.S.S. CURES SKIN DISEASES

The cause of all skin diseases can be traced to some humor or acid in the blood; the system is always healthy where the circulation is free from impurities. When the blood is infected with acid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness. Instead it irritates and inflames the delicate fibres and tissues around the pores and glands and produces some of the many forms of skin disease. The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acid humors with which it is filled, into the sensitive membranous flesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning. S. S. S. cures Skin Diseases of every character by purifying the blood. It goes down into the circulation and removes the humors or acids which are causing the trouble, builds up the weak, acrid blood, and permanently cures every variety of skin affection. Local applications can only soothe; they never cure because they do not reach the blood. S. S. S. goes right into the circulation, reaches the trouble and cures it by removing the cause. Every good house-wife should be interested in electric cooking for Summer months.

Summer months are very trying on the house wife. Sweltering over a cook stove is no joke in hot weather. No man has a right to expect it of his wife, and no wife has a right to sacrifice her health, her youth and her good looks.

Don't be a slave to an ancient cook stove. Cook with electricity.

Cook in a cool kitchen and save from one-third to one-half your time with no wood nor ashes to bother with; no soot, smoke nor dirt. Electric cooking practically cuts your kitchen hours in half. Its value in comfort and freedom from drudgery cannot be over estimated.

We carry a complete line of electric cooking devices — everything from plates to ranges. The line is too varied to describe in this limited space, but they can be seen at our office at any time. They are priced low enough to be within the means of all. We make a special rate to users of our electric cooking devices, which makes them as cheap to use as wood ranges. Drop into our office at any time and let us demonstrate them to you.
