# COOK IN COMFORT

You'll envy the woman who Cooks With Electricity

She doesn't spend the best part of the day in the kitchen, over a hot stove. Her kitchen is the coolest room in the house. She can cook wherever there is a light socket.

She gets her meals in a jiffy. The electric cooking devices heat up, ready for use, in fifteen seconds. No waste; no fuel to carry; no smoke nor soot; no ashes.

We carry all kinds of electric cooking devices, from the handy little "Radiant Grill" to the most elaborate ranges. We sell them at manufacturers' prices and make a special rate for current for cooking. This special rate makes electric cookers as economical to use as wood or coal ranges.

See the electric cooking devices at our office. We are glad to demonstrate them for you at any time.
