There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case that fails to cure. Send for circulars and testimonials.

FLOATING A TOWN AWAY.

Story of the Origin of Commercial Street in Provincetown.

Commercial street in Provincetown had an origin in keeping with its present nautical air and appeal to the imagination. The town originally stood on the spit of sand far out across the harbor, where the lighthouse now is. Many years ago the government bought Provincetown, houses and all in order to protect the harbor from the threatening sea. The Provincetownians went to the government people and asked what they were going to do with the houses.

"Pull 'em down, of course," said the government.

"Can't we have 'em?" inquired the late owners.

"Sure," replied the government. "If you'll take 'em away."

"Sure!" echoed the Provincetownians. Old wreckers that they were, they applied their technic to the problems of house moving. They bulkheaded their dwellings up, necklaced empty casks about them in the way of life preservers, and one sunny morning the village of Provincetown, true to its maritime traditions, set sail, schoolhouse and all, and came floating gayly across the harbor to where it now stands. Near the railway track today they point out a certain store as the original seafaring schoolhouse.—Metropolitan Magazine.
