What Do The Users Say About Electric Irons

How do the women who use electric irons like them? Are they really as satisfactory as is claimed for them? That's what you want to know, madam! Well, ask your friends about them.

We have sold hundreds of irons in La Grande, and they are all in use. They save waiting for irons to heat; bother of changing irons; the difficulty of getting irons just right—neither too hot nor too cold. These are a few of the advantages of the electric iron. They cost less to use than the old fashioned kind.

No woman, who has used an electric, will ever, willingly, go back to the old fashioned kind. But don't take our word for it; ask the woman who uses an electric.

We handle the best makes of electric irons at regular manufacturers' prices. See them at our office.
