LONG BRIDGE IS FINISHED

ELGIN SPAN LONGEST IN EASTERN OREGON.

Wheat Being Hauled Into Elgin Over New Structure.

(Elgin Recorder.)
The Elgin steel bridge, longest in the inland Empire, is completed and is now being used by the wagons hauling wheat from the flat east of town. The bridge is a credit to the builder, Supervisor Campbell, and one that the county can well be proud of. Mr. Campbell has rushed the work on this structure in order to have it in use for as much of the heavy fall hauling as possible, for which the farmers who have to come in that way with their grain are duly thankful.

Mr. Campbell, in the time he has been bridge supervisor for Union county, has put in a number of fine steel bridges, all of which have been giving value received. The county is lucky in having such an able man for this class of work.

Dr. C. H. Ellsworth, dentist, 16 Baldwin St., Rochester, N. Y., says Foley Kidney Pills gave him immediate relief and strengthened him wonderfully. "I have been bothered with weak kidneys and bladder trouble and suffered much pain. Foley Kidney Pills gave me immediate relief and strengthened me wonderfully. I am pleased to recommend their use." A. T. Hill, Druggist.

SELECT 'SPUD' SEEDS AT ONCE

SUCH IS ADVICE GIVEN TO POTATO GROWERS.

Idaho Expert on the Subject Offers Admonitions to Growers.

The potato growers should not become too excited over the harvesting of big crops and be in too much anxiety to get the "spuds" into cash form, but should pick their seed potatoes for next year now, is the advice given to Grande Ronde farmers by R. B. Coglan, seed commissioner, in the Idaho Agricultural college. He also declares that when the crop is in the cellar proper seed selection is impossible.

Mr. Coglan refers to the well-known fact that where any variety is grown year after year on the same farm the potatoes gradually diminish in size and in production per acre. Hence the common habit of securing seed potatoes from a distant source, often at a fancy price.

It is becoming apparent now, as Mr. Coglan notes, that the cause is not so much in the variety of potatoes as it is in the variety of the farmer.

The simple fact is that the quality of the crop largely depends upon the quality of seed potatoes sown.

If potatoes with deep eyes are planted one may expect a crop of deep-eyed potatoes plant potatoes with "knuckles" upon them and one may expect a harvest crop with these secondary growths upon them. Plant big and little potatoes of all shapes and sizes and they will produce more or less their own kinds.

The hills that turn out the largest number of high quality potatoes are the ones to watch when the seed question is up.

Take pains in selecting the seed and it will be about the best paying job on the farm.

Mother of Eighteen Children.

"I am the mother of eighteen children and have the praise of doing more work than any young woman in my town," writes Mrs. C. J. Martin, Boone Mill, Va. "I suffered for five years with stomach trouble and could not eat as much as a biscuit without suffering. I have taken three bottles of Chamberlain's Tablets and am now a well woman and weigh 168 pounds. I can eat anything I want to and as much as I want, and feel better than I have at any time in ten years. I refer to anyone in Boone Mill or vicinity and they will vouch for what I say." Chamberlain's Tablets are for sale by all dealers.

An eight-room school building is being erected at Corvallis in the Avery addition.

Acreage for Sale.

About 3 1/2 acres in south La Grande over 100 apple trees on the place, many of them bearing. Fine garden soil. Running water. You can buy this on very easy terms.
