

With The Opening Of The Social Season

Comes the need of a new Party Gown.
May we modestly ask you to consider us
seriously when the Party Gown question
presents itself to you?

For we know we can be of benefit to
you. No carried-over Gowns in our stock.
We keep up-to-the minute on these styles
and will show you nothing that could not
be worn properly this season in the large
society centers. That is why our store is
recognized by so many well-dressed ladies.

Ladies' Ready-to-Wear

The Candy Kid

is almost any kind of a kid that is healthy. Makes no difference whether boy or girl—the appetite for good, pure and wholesome candy is there just the same. We make all our own candies and therefore we can guarantee them in every particular.

"Every progressive state in the union has passed laws for factory inspection. Every such laws means an increase of governmental power. Is Mr. Wilson in favor of repealing those laws? If he is not, then what does he mean by saying that the history of liberty is the history of the limitation of governmental power?"
—THEODORE ROOSEVELT.

"We demand a minimum wage for women; that is, a living wage. I have followed with intense interest the remarks of the distinguished Democratic candidate for president. I have waited some five or six weeks since his nomination in the hope that I would see an explicit, clear and concise declaration from him, and the first explicit declaration upon a question fundamental or involved in our platform was—God save the mark—that he denounces the idea of a minimum wage for the women of the nation."
—GOV. HIRAM JOHNSON.

"We preach the gospel of humanity, and we mean to write the gospel into the law of our state and country. Because both the old parties have turned their backs on humanity; because they refuse to meet the questions of the hour; because they have turned their faces toward the selfish interests that suck the substance of the American people, so there has sprung from the conscience of the people the great Progressive Party, whose mission it is to defend the people and right the wrongs from which they suffer."
—J. J. BEYERIDGE.

"If I have the honor to be elected President I intend to see that the conservation policy is administered in the interest of the actual settler—the man who moves on the land to live there, and who will leave it in an improved condition for his children. In other words, the policy should be one of administration for the benefit of the small man, and not the great companies."
"If I become President, I shall make it my personal affair to investigate the working of all the water laws concerned with conservation of the water power, of the forest laws, and of the grazing laws, so as to make sure they are actually administered not only honestly, but without any improper red tape, in the interest of the small man."
—THEODORE ROOSEVELT.

RADIANT GRILLS

We are enthusiastic about the Electric Radiant Grill. You will be too, when you see it in operation. There is a fascination about electric cooking.
While the electric grill does not take the place of a kitchen range, you can do all your light cooking on it; breakfasts, lunches, etc. This convenient little cooking device operates anywhere there's a light socket, at any hour of the day or night. Think what that means in the sick-room or nursery, or when you are in a hurry.
The Electric Radiant Grill costs but little. Ask for free demonstration in your own home.—Main 34.
