GIRL SWALLOWS PIN.

Pretty little Hazel Deal, two-year-old daughter of Mr. and Mrs. Robert Deal of South La Grande, carries within her tender anatomy the sharp end of a broken safety pin, it is believed, and though she swallowed the article yesterday physicians cannot well determine its precise location today and it may be necessary to wait several hours yet. At present it is causing little pain though its pricking first called attention to the dangerous acciden. The little girl informed her mother that "pin sticking Tazel," and investigation led to the conclusion that she had swallowed the pin or rather part of a safety pin which had been broken previously. Surgical attention was called, and just what the outcome will be is uncertain.

Harvard and Vanderbilt.

Boston, Mass., Nov. 8.—North and South will battle at the stadium gridiron tomorrow, when the elevens of the Vanderbilt University and Harvard University will engage in what is regarded as one of the most notable of the intersectional gridiron football contests of the present season. It will be Vanderbilt's first invasion of this section of the country. Her eleven is regarded as the strongest aggregation among the big southern colleges and close critics of the game are of the opinion that the Crimson will have to play her best against the Commordons.

GOTHAM HAS HUGE BUDGET

New York, Nov. 8.—The largest budget which has ever been adopted by any city in the world has been passed by the board of estimate here, but New Yorkers are so used to big financial doings of all sorts that the fact has caused little comment save for some more or less subdued grumbling at the increased expenditure. As a matter of fact the budget estimate of more than $193,000,000 for the city's expenses of 1913 is with one exception larger than that of any other government, municipal, state or national, in the Western hemisphere. The exception is of course the United States itself.

Some idea of what such a budget really amounts to may be gathered by the fact that it is as large as those of Denmark, Switzerland, Sweden, Norway, Greece and Servia combined. New York maintains no army, but the appropriation for school for next year would keep up a very respectable military establishment. In fact, the school money about equals the yearly pay of the whole United States army at the present time for both officers and enlisted men. More than $36,700,000 is set aside for the educational needs of the city, which supports, besides the elementary schools and the great high school system, a normal college and the College of the City of New York where any young New Yorker, boy or girl, may get a modern college education free of tuition. The police department will cost $16,500,000 next year, the fire department $8,900,000, public charities $3,600,000, and so it goes. New Yorkers find some comfort in the fact that the tax rate is not going up with the increasing budget. The increase of $11,900,000 over the 1912 forecast is met in part by an increased assessment of $130,000,000 on the taxable real estate, and a direct improvement in the returns from certain prop- of $11,900,000 for the the and the notably the great city docks, which, under efficient management, will bring in a total of $9,500,000 more than they have this year.

The eighth annual convention of the Order of Railway Track Foremen of America will begin in Boston, Nov. 18.

MEN, WOMEN

(Continued from page 1.)

Business is paralyzed, indicating that a crisis is near. The populaton at Stamboul is repeatedly attempting to pass the Golden Horn separating the native and foreign sections, but the drawbridges are frustrating their attempts.

The native Christians are more numerous than Mohammedans, but women and children are armed to do battle as soon as the Mohammedans leave Stamboul. The streets are deserted and cavalry is patrolling while soldiers are armed to the teeth waiting at either end of the bridge spanning the Golden Horn with orders to shoot to kill when the Mohammeuans rush. It is not believed the troops can withstand the attack.

American Ships En Route.

Washington, Nov. 8.—President Taft has ordered the armored cruisers Montana and Tennessee to sail immediately from Philaedlphia to the Mediterranean as protection for the American missionaries and educators at Smyrna. The American ambassador at Constantinople has been ordered to confer with European colleagues regarding precautions for lives of foreigners if the city falls.

Vienna, Nov. 8.—Lieutenant Wegener, a correspondent of the Vien na Riechspost has telegraphed his paper that informal negotiations have been begun for the surrender of uncaptured forts before Constantinople.

According to other specials the Bulgarian army is the first to possess Tchatalja Heights. Wegener concludes: "The last bulwarks of Constantinople are gone."

Abruzzi to Be Emperor.

London, Nov. 8.—It is stated that a triple alliance plans to make Albania a monarchy and the Duke of Abruzzi the emperor. Athens dispatches insist the Greeks have captured Salonika.

It has been learned that Sofia, and Belgrade censors are eliminating portions of news matter filed there and have written in parts of the dispatches of their own accord. It is believed from this that the victories of the allies have not been reported.

PROGRESSIVE

(Continued from Page 1.)

Madison, Wis., Nov. 8.—Senator La Follette in his weekly says the election of Wilson is a call from the Progressives of the country who "demanded simple justice and who are striving for industrial, educational and political democracy."

State Politics in Doubt.

New York, Nov. 8.—Control of the state legislatures in Oregon, Illinois, Michigan, Tennessee and Wyoming is in doubt, but the Progressives appear to control the Illinois legislature. Progressives and Democrats may combine in Michigan to prevent the election of Senator Smith.

Kansas Governorship Close

Topeka, Kas., Nov. 8.—It is believed that the official count will be necesary to decide who is governor. The Republicans claim Capper and the Democrats Hodge.

Wilson Strong in Wisconsin.

Milwaukee, Wis., Nov. 8.—Wilson's Wisconsin plurality is 37,000 at the least. McGovern for governor has 4,000 plurality.

Los Angeles for Teddy Strong.

Los Angeles, Nov. 8.—Roosevelt's plurality in Los Angeles county is expected to be 30,654, according to figures by the county clerk.

Notes from the Labor World.

A new local of laundry workers has been chartered in Chickasha, Okla.

95 per cent of the print cutters of the United States and Canada are organized.

The Brotherhood of Railway Carmen recently organized a new lodge at Brandon, Manitoba.

PAVING AREA GREATLY INCREASED

Work of Laying Bitulithic Paving at Albany Is Rushed Day and Night.

"The work of laying bitulithic paving in this city is carried forward day and night, the night force working by the ad of searchlights," says a dispatch from Albany, a progressive Oregon City which has put in 60½ blocks of paving this year, almost exactly doubling the city's entire paving area.—Adv.

Fine Vaudeville at the Arcade.

The Campbells, who opened a three days' engagement at the Arcade last night, creatd more fun than any similar act here in months. From the time they are on till the finish it is just one big laugh. Mr. Campbell's interpretation of the song, "I'm Goin' Crazy," was a big hit and he was forced to respond to repeated encores.

The picture program consists of four reels of first run films of excellent quality and closing with The Tree Imp, featuring Miss Mabel Trunnell in the title role.

Coming next Monday and Tuesday, the greatest picture of them all, Custer's Last Fight.
