

ROYAL BAKING POWDER

Absolutely Pure

[From a series of elaborate chemical tests.]

Comparative digestibility of food made with different baking powders.

An equal quantity of bread (biscuit) was made with each of two kinds of baking powder—cream of tartar and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The percentage of the food digested is shown as follows:

Bread made with Royal Cream of Tartar Powder:

99 Per Cent. Digested

Bread made with alum powder:

67 Per Cent. Digested

Royal Baking Powder raised food is shown to be of greatly superior digestibility and healthfulness.

If you drink because of a craving for stimulants—if you've reached the stage where nothing will satisfy excepting rough, high-proof, strong whiskey—our story is not for you.

But if it's mellowness, age and flavor you're looking for—you'll like Cyrus Noble.

Because it's pure—because it's palatable—because you don't have to dilute it with water to be able to swallow it. It costs no more than any other good whiskey.

From a health standpoint it is more important to brush the teeth than wash the face on rising
