suits and coats at West's.

Citizens and Taxpayers.
I announce myself a candidate for
councilman in the Second ward and
ask your assistance in the coming
election.

I believe in applying the same
economic business principle in ad-
ministering city affairs that I would
successfully use in a large private
business.

I believe in conserving the inter-
est of the taxpayers, requiring effi-
ciency in all city departments, abso-
lute fulfillment of agreements from
all contractors; and do object to the
suppression of competitive bidding
where contracts are to be let.
F. D. HAISTEN.

11-22-12-8

and Odd Lots

The Golden Rule Co.**Additional Capital Wanted****To Erect Two Large Greenhouses to Add to Our Present Buildings**

Starting into the greenhouse business this summer in a limited way, I have been cautiously feeling my way along, adding new stock to the greenhouses, building more buildings and investing my capital. I have satisfied myself fully that I have associated with me a good grower, a man who thoroughly understands plant life and who can successfully grow anything that will thrive in this climate. I have satisfied myself (from the sales already made) that La Grande and the surrounding country is large enough to support a much larger plant than we now have; what we can raise now would not begin to supply the local demand. So fully satisfied am I that the investment is a good one, I have invested every dollar of my capital in the enterprise.

I am not content to stop here. The possibilities of the business can hardly be realized. Each day I can see new ways of making money in the business. There is no question about selling all the stock we can raise. We can raise the finest of carnations here and Portland florists would gladly take a thousand dozen a week of us had we them to sell. We are now buying most of our cut flowers. Instead we should be growing them ourselves. This means more buildings and necessarily more capital. This is no stock selling scheme whereby we are offering twenty dollar gold pieces for one dollar invested. It is a good straight, legitimate, paying business proposition. We desire \$3,000.00 more cash capital in the business and will sell 300 shares of stock at \$10.00 per share for this purpose. I sold one of the best dividend paying propositions in this city to go into this business and firmly believe it has a much greater future. Would prefer a man to take the whole of this stock and devote his time to the business or a lady who could take charge of the store and allow me to devote my time at the greenhouses. Here is an excellent opportunity for a lady with this amount of capital to establish herself in a very pleasant business. If you are interested about this call and talk it over.
