Don't Blame Your Over Worked Stomach

When your stomach will not digest food, the worst thing you can do is to take a lot of digestive medicines. True, they give temporary relief, but your stomach is the sufferer. Loss of appetite, indigestion, dyspepsia and headaches can only be permanently relieved by removing the cause. In many cases, various remedies taken to relieve these conditions result in ruining the stomach and preventing it from digesting food in a natural way.

If you want your stomach to do its own work properly, without resorting to artificial digestives or predigested foods, use Jayne's Tonic Vermifuge. Take small doses regularly, preferably before meals. In a little time your stomach will again do its own work and you will eat heartily, keep well and enjoy living. Jayne's Tonic Vermifuge is not a digester in itself, but it tones up the stomach and increases giving you all the nutriment and strength from the food you eat.

Porto Rico's New Wonder.

From far away Porto Rico come reports of a wonderful new discovery that is believed to vastly benefit the people. Ramon T. Marchan, of Barceloneta, writes "Dr. Kin's New Discovery is doing splendid work here. It cured me about five times of terrible coughs and colds, also a brother of a severe cold in his chest and more than 20 others, who used it on my advice. We hope this great medicine will yet be sold in every drug store in Porto Rico." For throat and lung troubles there is nothing better. A trial will convince you of its merit. 50c and \$1 Trial bottle free. Guaranteed by all druggists.

UNITY OF LIFE.

Cells of Animals and Plants Alike and Governed by Same Laws.

Protoplasm, the literal translation of which means "the first man made," was the name given by a German scientist in 1840 to the shiny, granular, semifluid contents of vegetable cells. It looks like the white of an egg, and it can be analyzed into four chemical elements—carbon, oxygen, nitrogen and hydrogen. It is now recognized as the fundamental basis for all life.

The smallest particle of it goes through what is known as the cycle of life-free motion, feeling, feeding and reproduction. When in some unconscious way it grows a membrane for a covering or a little nucleus, a kernel somewhere within it, science calls it a cell.

These cells are the same in plants and animals. Professor Jacques Loeb showed the importance of this fact. Although plants, he explained have no nervous systems, they have "instinctive movements." In analysis of instincts he found together in the cell common to them the plant and the worm at the root of the plant—as some day, perhaps, the tree of life and the serpent may be bound—and he called their reflex actions "tropisms."

Then he pointed out that tropisms are mechanical acts—that moth and fly and ivy leaf move in spite of themselves in chemical subjection to light, heat and odors, which the scientist calls "emanations."—From "Unity of Life" in Metropolitan.

Disraeli's Fine Digestion.

Disraeli appears to have been endowed with the most accommodating digestion. When he visited Spain in 1830 he wrote his mother glowing accounts of "the most agreeable dish in the world—an omelette. I will explain it to you, for my father would delight in it. There are two large dishes, one at each end of the table. The top one contains bœuf à la mode, boiled pork, a sauce and black pudding. The other is a medley of vegetables and, usually French beans, caraway seeds, whole peas. Each person to a portion of the meats and then to the medley. Mix them up in your plate together and drown them in tomato sauce. I have eaten this every day."

ALWAYS CONQUERS RHEUMATISM

Thousands of persons have been rescued from the tortures of Rheumatism and restored to perfect health by the use of S. S. S. So uniform are the good results from its use that we do not hesitate to say S. S. S. always conquers Rheumatism if given a fair trial. You can never cure this degenerated disease with external treatment, such as liniments, plasters, blisters, etc. These may furnish temporary relief but they do not reach the blood where the real cause is located. Rheumatism is rooted and grounded in the blood and must be driven from its stronghold there before permanent relief can be had. S. S. S. conquers Rheumatism by driving from the circulation the excess accumulation of uric acid which is responsible for the disease. S. S. S. strengthens and invigorates the blood so that instead of a weak, sour fluid, causing pain and agony throughout the system, it becomes a nourishing stream furnishing health to every portion of the body and relieving every symptom of Rheumatism. If you do not conquer Rheumatism it will conquer you. S. S. S. is the one remedy you can depend upon for good effects. Book on Rheumatism and medical advice free.
