H. E. DIXON, LAWYER—All State and Federal Courts. Collections. Rooms 4 and 5, La Grande National Bank Building.

LA GRANDE Y. M. C. A. DEPARTMENT.

Y. M. C. A. News of Current Interest Noted Hereunder, Direction of J. H. Rudd, General Secretary.

Thinking that it might be of interest to readers to hear from some of the other Associations along the line, we are today publishing a report issued by I. B. Rhodes, state Y. M. C. A. secretary. When it is seen what some of the other cities are doing it makes the members more confident that La Grande can do better than any of them.

(Issued Dec. 10, 1912, by I. B. Rhodes, State secretary.)

Harrison, Idaho—The new Industrial association building at Harrison Idaho, is completed and the formal opening will take place December 13-15. The plant will cost about \$5,500.

Twin Falls, Idaho—Funds are being raised at Twin Falls for the purpose of purchasing a lot on which to erect an Association building at some time in the future.

Payette, Idaho—The Payette Association has recently had a campaign which increased their membership to a total of 370. Not bad for a town of 3,000 population. All departments of work are actively conducted. Jas. Morley, the general secretary, leaves January 1st to accept a field in Nebraska.

Albany, Oregon—The newest Association on record is at Albany. The Alce club, a social and athletic organization, which has been in operation for about ten years, found it practically necessary to discontinue and a proposition was submitted to them by a group of men in Albany to turn the property over for Association purposes. An organization has been effected with a board of directors of 15 men. C. E. Sox, one of the attorneys of the city, is president. D. L. Foster, assistant general secretary, at Kellogg, Idaho has been called to the general secretaryship and will begin his work not later than January 1st. The property of the Alce club which includes a fine gymnasium will be remodeled for temporary use. A campaign for \$30,000 will be launched at some time in the future with which to erect a brick building on the front of the lot. Send them a word of congratulation.

Salem, Oregon—The directors of the Salem Association have recently completed a very successful campaign to provide the current expense fund for the coming year. \$3,500 was the sum desired but at last reports they had secured \$4,300. The work of the organization is in splendid condition.

Boys' Conference—The largest boys' conference ever held in Oregon met at Eugene, November 29-December 1, with 229 older boys and 17 leaders in attendance. The boys averaged over 16 years of age and many of them are capable of leadership in their own communities. Reports are already reaching us of the formation of boys' organizations and a stimulation of Bible study as a result of the meeting.

Eugene, Oregon—A campaign is on at Eugene for current expense funds for 1913, covering both University and City Associations. The University of Oregon Association shows a splendid year's work. Over one-half of the men are enrolled in the membership and a still larger percentage are enrolled in Bible study classes.

Bovill, Idaho—A Y. M. C. A. on Wheels is in operation among the ten camps of the Potlatch Lumber company near Bovill. James Lansbury, formerly with the Union Rescue Mission in Spokane is in charge. It is already proving popular with the men.

ESCAPES FIRE IN COLD.

Sumpter Family Flees From Burning House in Night Clothes

Sumpter, Jan. 8.—(Special)—To be forced to leave their blazing home dressed only in their night clothes, with the thermometer 18 below zero and to fight the fire was the experience of Mr. and Mrs. Earl Gray, former Baker residents now living at the Golconda mine.

When they awoke at 11:30 o'clock Monday night they found the kitchen in flames and they had to rush into the snow to save themselves. The water in the pipes was frozen so that

Anyone can make delicious, crisp wheat cakes by following this recipe—a new one received from a famous Vermont cook:

WHEAT CAKES

1 1-2 cups flour
4 even teaspoons baking powder
1-2 teaspoon salt
2 tablespoons sugar
1 1-2 cups milk
1 egg
1 teaspoon melted butter or two of rich cream

Sift flour, baking powder, salt and sugar into mixing bowl; add milk very gradually, beating smooth. Add well-beaten egg and melted butter or cream. "Bake" on a hot griddle, slightly but evenly greased. Do not have cakes too thick; as soon as lightly browned on both sides, spread one side with butter, roll them up and serve immediately on a warmed plate.

But cakes aren't cakes without plenty of

TOWLE'S LOG CABIN SYRUP

Your grocer has just received a fresh supply, right from Vermont, where it "grew."

Towle's is good all the time, but if there's one time when it's better than another, it's right now when the cool weather gives folks good appetites.

Towle's Log Cabin Syrup is made on the scientific plan for

making youngsters grow and keep well—children need sweets and Towle's is fine for them. Their craving for Towle's is Nature's guide to the nourishment they need.

And that flavor—always like the "first run of sap" because the Towle way of making syrup keeps the original mellowness of the maple.

To-morrow morning will be a good time to try this new Wheat Cake Recipe. Order a can of Towle's Log Cabin Syrup from your grocer to-day and give the family a treat. We are going to print more recipes, too. Cut this one out and paste it in your cookbook—then watch for the others and get the whole Towle series.

The Log Cabin Can is your guarantee of purity and superior quality.

"Jack Towle" will send you a valuable recipe book and a miniature can of Towle's Log Cabin Syrup for five 2-cent stamps, to cover postage—send to-day. Address Jack Towle, care of

"From my camp to your table."

FOLEY'S HONEY and TAR Compound

FOR SALE BY A. T. HILL, Druggist.

only the small quantity stored in tubs and snow was available to fight the flames.

Both worked valiantly and the nearest neighbors at the Columbus mine, a quarter of a mile away, were called and helped extinguish the flames. The blaze was started from a defective flue in the kitchen and destroyed that and another room with all the contents making the loss several hundred dollars. Neighbors cared for Mr. and Mrs. Gray who suffered little effect from their chilly experience. Mr. Gray was formerly employed at the Welch undertaking rooms in Baker and is now working at the Columbia mine cyanide plant.

MORE ELK TO BE ASKED FOR

Addition to the number of elk in Oregon is in sight. Action has been taken at Pendleton and Walla Walla to stock the Wenaha reserve, as noted in the following from the Pendleton E. O.

While in Walla Walla today, the members of the Umatilla county court will consider with the Washington commissioners on a proposition of

stocking the Wenaha forest reserve with elk from the Yellowstone national park. Inasmuch as the reserve lies in several counties of Oregon, and Washington, the proposal is to have each of the counties make small appropriations to defray the purchase price and the cost of transporting the elk.

The county court of Walla Walla county is taking the lead in the matter. That county has a \$750 surplus in the fund for the protection of game and if it is legally possible to use this money for the purchase of elk the court is in favor of doing so.

The Wenaha reserve lies in Umatilla and Union counties of Oregon and Walla Walla, Columbia, Garfield and Asotin counties, Washington and whether or not all make appropriations the favorable attitude of the court of each is desired in order that proper protection be secured for the big game animals.

According to advices from Yellowstone Park, the elk are increasing so rapidly there that they cannot be properly cared for and the government is desirous of shipping them out. Last year a herd of fifteen were brought to the Wallows reserve and another carload will be brought there this year, according to District Game Warden Averill.

There are now about 300,000 elk in Yellowstone Park and they are being sold for \$5 a head. The cost of transporting a carload to the Wenaha

reserve would be about \$80, but it is the desire of those backing the move to have each county provide for two cars of the animals. This would insure a herd of several hundred.

It is probable that the sheepmen will oppose the move because of the fact that the ranges in the reserve are now used for their flocks and would not afford food for several hundred elk in addition.

A NEW FEE OF WOOLMEN.

That the hobbie skirt is the wool industry's greatest enemy and is more to be feared by wool growers than coyotes, cougars, poisonous plants or storms, was a declaration made by Dr. W. H. Lytle of Pendleton, state sheep inspector, before the recent convention of the Oregon Woolgrowers' association at Yale.

There has been a decrease in the sales of piece goods since the advent of the hobbie skirt, declared Dr. Lytle "of 30,000,000 yards from normal sales. Think of it! Where skirts were once six yards around, the hobbie mania makes them but a scant 18 inches."

A resolution was passed unanimously authorizing a committee to promulgate a campaign for the return of hoopskirts and crinolines. Owing to the wild scramble that ensued to get on this committee, due to the desire of the sheepmen to be in the forefront of the fight, President Dobbs was unable to announce the appointments, which will be made later.
