#### BREVITY APPRECIATED.

Japanese Courtesy Was a Bore to Both Oriental and Englishman.

Oriental courtesy takes up a great deal of time and on that account is not always appreciated in western lands, as is shown in the following extract from Yoshio Markino's book on Englishwoman, "Miss John Bull," in which he says:

"I used to live in Greenwich, and thence I attended to the Japanese naval office in the morning, then to the night school of the Goldsmith Institute. It was nearly 11 o'clock every night when I arrived at my diggings. I was dead tired. The landlord asked me every evening:

"How were you getting on with your work today?"

"I always answered him every small detail of my work at the office and the school. One day I said to my land-

lady:

"Why is your husband giving me such a troublesome question? You see, I often feel too tired to answer."

"She patted me and said:

"My poor boy, you need not give him all information of your work. It is our custom to say "How are you getting on?" and if you simply say "All right" that will be quite enough."

"The next evening the old man put the same question to me. At first I rather hesitated because I thought such an abrupt answer might offend him, but I got courage at last when I saw his wife giving me some sign in her eyes. I shouted loudly, 'All right!' To my surprise, the old man seemed more satisfied than to hear the details.

"Since this event I began to incline to have more friendship with John Bull's than John Bull's!"
