

ROYAL BAKING POWDER

Adds Healthful Qualities to the Food

Prof. Prescott, of the University of Michigan, testified before the Pure Food Committee of Congress, that the acid of grapes held highest rank as an article of food and he regarded the results from baking with cream of tartar baking powder as favorable to health.

HIGH MARK IN BEEF ANNALS

HOGS SHOW LITTLE CHANGE THIS WEEK.

Wheat Strong and Fruit Is Advancing Steadily.

The highest price paid for beef on the Pacific Northwest was paid yesterday. It was a banner day in fat steers and the price has hit the eight cent notch, likely to stay for some time to come. This will make the price in La Grande seven cents on the hoof for the best grades with a slight reduction for the inferior grades. The receipts were not very heavy and there is a dearth of choice stock for the Portland market. There seems to be too much feed in the country and too few steers to eat it

Hogs Show No Change.
The receipt of hogs was lighter than in the fore part of last week and the price remained the same. Hogs are plentiful and there is no likelihood that hogs will keep pace with cattle.

Wheat Is Strong.
Reports from all the markets of the world indicate that wheat will advance in price. London and Paris have been buying at one and two cents higher than yesterday, and the shipments from American ports are increasing. Portland shipped over 50,000 bushels to the London market. This will not immediately affect the home market but the advance seems to be of a nature that will make flour higher everywhere.

Fruit Advancing.
As a result of the frost in the great orange state, fruit has taken a spurt and will be active from now on because all of the orange market seems to be turned over to the apple men. Apples should be climbing

Best--By Every Test

People will differ on politics, religion and most every other subject under the sun, but there is one thing that ninety-nine people out of every hundred agree on, that is; the superiority of

Electric Lights

over all other kinds. The question naturally arises then: "Why are not all home lighted by electricity?" The answer is simple. Some people who are not familiar with lighting progress still think that electric lights are expensive. We are convincing people daily of the economy of electricity for lighting. Will you give us a chance to prove it to your satisfaction?
